The term legendary is sometimes overused in the modern world, especially when it comes to fishing, but it's a superlative that perfectly describes DAM (or Deutsche Angelgeräte Manufaktur). The German brand was originally founded way back in 1875, making it one of the oldest fishing tackle brands on Earth. Throughout its long and illustrious history, DAM has achieved many great accolades including being one of the first European brands to offer fishing rods made entirely of carbon in the 1970s, creating the first-ever German branded fishing line with patent and trademark in DAMYL, launching the world-famous Quick reel brand, and creating the million-selling EFFZETT spinners and spoons. With more than 145 years of history, it should really be no surprise that DAM has managed such achievements and is so well-known and loved by anglers around the world.

Perhaps one of the most important milestones in DAM's history was when it became part of the Svendsen Sport group in 2003. Since then, through investment and a focus on continuous innovation and product development, the brand has achieved a great deal. Through all of its products, DAM aims to offer anglers of all experience levels fishing tackle that they can rely on – at all price points. Whether you want to catch a few toothy predators like pike, zander or perch, tame some carp or catch some hard-fighting saltwater species from the deep seas such as cod, DAM has the answers. DAM combines its history and tradition with modern and innovative product development, that ensures to meet the highest quality standards, all with the focus on satisfying the growing demands of today's anglers. DAM is a brand that anglers have trusted for a very long time and will continue to trust for an even longer time to come.

DOUBLE-SEALED BALL BEARINGS

Double-sealed, stainless steel ball bearings. Keep grease inside and prevent aggressive saltwater from penetrating.

MICRO-FINE DRAG ADJUSTMENT

A micro-adjustable drag allows an angler to tighten (or loosen) the drag in tiny steps. So, it allows him to set the drag more accurately, which makes it possible to play a fish with more finesse.

METAL SPOOL

This symbol means that the reel comes with a metal spool.

INSTANT ANTI-REVERSE SYSTEM

A special needle bearing stops the rotor from running backwards with perfect accuracy. So you are always in direct contact with the fish which makes very fast and penetrating strikes possible.

FREE SPOOL SYSTEM

Our free spool technique guarantees the fish can take line in a control manner with a closed bail. By turning the handle, the pre-adjusted front drag engages immediately.

FULL ALUMINIUM REEL

Reel body and rotor made from extremely strong and robust aluminium. Aluminium is not only lightweight, it is also rigid, so it won't deform the reel body and/or rotor when under stress, preventing the internal parts from damaging. This adds to the durability and reliability of a reel.

ANTI-VIBRO-SYSTEM

Anti-Vibro-System of D.A.M. includes dynamic balancing of flange and crank providing almost vibration-free running for more comfortable fishing and increased durability of the reel.

EFFECTIVE SPEED REGULATION

Instead of an extravagant gear system, our Quick® S-P-S multiplier reels feature a simple but effective power crank handle, adjustable in length. When playing a fish, the angler can effortlessly adjust the handle length. Use the short handle for fast retrieve and the long handle for more fighting power.

GRAPHITE SPARE SPOOL

This symbol means that the reel comes with a graphite spare spool.

WORMSHAFT SYSTEM

Enables extended spool lift, which is a major feature of modern long-range spinning reels. DAMYL® line will be perfectly distributed over the entire spool length, supporting the drag function and allowing longer and more accurate casts.

OVAL OSCILLATION SYSTEM

The patented OOS – Oval Oscillation System is basically logical evolution of our worldwide known S-Stroke System. OOS gives the reel outstanding smooth gearing, an extremely even line lay and a longer life than conventional reels.

METAL SPARE SPOOL

This symbol indicates that the reel comes with an aluminium spare spool.

S-STROKE SYSTEM (PATENT DE 4035846)

The outstanding S-Stroke System of D.A.M. directs the spool lift in a way that criss-cross lay of DAMYL® on the spool is made possible. Thus, even thin or wet braided lines do not cut in and glide off smoothly and perfectly.

ANTI-TWIST SYSTEM

Most of our reels have an Anti-Twist line roller. The concave shaped line roller minimizes the risk of DAMYL® line being kinked when being pulled of the spool.

SEALED BODY CONSTRUCTION

The inside parts, as well as the drag, are fully protected against aggressive saltwater by a unique Sealed Body Construction.

DISTANCE CASTING SPOOL

The ultra wide spool diameter combined with an extra low stroke provides extraordinary and precise distance casting abilities.

ALUMINIUM BODY

Body made of aluminium. Ideal material for heavy duty reels. Gives a reel maximum stability.

CARBON ROTOR

Carbon reinforced rotor for less weight and increased stiffness and strength. Doesn't bend easily. Handles extreme force better than standard graphite rotors.

LINE DISTANCE CONTROL

The Line Distance Control System allows the angler to cast the same length of line everytime, making sure he's able to fish permanently exactly on the baited spot or in front of a snag.

QUICK SNAP

Our patented Quick Snap handle system enables you to easily fold out the handle with just a single touch! This way you are able to store multiple rods in one hold-all safely without damaging any guides or DAMYL® line during transport.

CARBON BODY

Carbon reinforced body, to make it lighter, stronger and more durable than a normal graphite body.

MULTI DISC REAR DRAG

Multiple drag discs positioned in series transmit the adjusted drag power to the spool. Fine and easy setting of the drag is made possible even when playing the fish.

MULTI DISC FRONT DRAG

A drag system completely integrated in the spool.

STAINLESS STEEL MAIN SHAFT

A stainless steel main shaft makes a reel stronger and more durable. It will perform even under extreme conditions. It resists corrosion even in saltwater conditions.

DS CARBON DRAG SYSTEM

The dragwashers used in this system is a carbon fiber fabric that's laminated on both sides on fiberglass to provide stiffness on the washers which result in a ultra smooth and powerful drag. The dragwashers can be turned around as well which results in a brand new drag system.

CARBON DRAG SYSTEM

The dragwashers used in this system are made out of carbon fiber. These washers result in a ultra smooth and powerful drag.

FULL SPOOL MARK

The Full Spool Mark clearly indicates how far the spool should be filled for optimum efficiency. If overspooled there is an increased risk of casting windknots. If underspooled the maximum casting distance potential will not be met.

SALTWATER RESISTANT

The key components in this reel are saltwater resistant. These reels can be used under the most tough conditions and keep providing a smooth and strong performance.

CNC GEAR

Computerized Numerical Control Gear means that the gear inside this reel is produced from one solid piece of metal like Stainless Steel, Brass or Aluminium. The end result is a strong more precise gear box inside the reel which last even under the most toughest circumstances.

PRECISION BALL BEARINGS

Ball bearings reduce play and wear on rotating parts to a minimum, resulting in silent and smooth running reels. They also increase durability.

Quick®

The name Quick is iconic in the world of reels, and rightly so. Over the years it has produced reels that have treasured by anglers for their entire lifetimes. The range is as comprehensive now as it has ever been, offering every angler the opportunity to own a Quick reel, no matter how much they have to spend. Even the entry-level price point reels in the Quick range are packed with high-performance features, first-class components, and a quality feel from the moment you pick them up. This year we have added new versions of the Quick 2 and Quick 1, which offer incredible value for money that you simply won't find with any other reel brand. Start an angler off with Quick and you'll make an angler for life.

Quick® 4 FD

Engineered in Germany with only the best components. This complete range of reels contains small reels for light spinning but also freespool reels and some big sizes which are suitable for catfish and other heavy duty styles of fishing. Strong enough to resist the most fierce fish. Super smooth drag system, strong and reliable gear ready for any adventure at the bank. Available in the sizes 1000- 9000 and a special size 4000 Method Feeder with a shallow spool.

TECHNICAL DETAILS

- 6+1 Sealed stainless ball bearings
- Sealed carbon drag system
- EVA handle knob
- Knurled spool
- Lightweight graphite rotor and body
- Anti twist lineroller
- Double anodized spool

Quick® 4 SLS FD

The new QUICK® 4 SLS reel features a strong but lightweight graphite frame with ABS/1K carbon side-plates, a forged and machined Super Long Stroke aluminium spool, 6+1 stainless steel sealed ball bearings for smoothness under heavy retrieve pressure, a powerful but smooth, sealed, carbon fibre drag system. Built in super slow oscillation gives incredible line-lay over the spool for long distance casting performance with braid and mono lines and is saltwater resistant to minimise long term corrosion. Ideal for all long distance carp angling.

TECHNICAL DETAILS

- 6+1 Sealed stainless steel ball bearings
- Sealed carbon drag system
- Worm shaft with super slow oscillation
- Dark wooden handle knob
- Stainless steel 7mm diameter main shaft
- Diecast zinc alloy main gear
- Machined brass pinion gear
- Quick drag system

Quick® 2 FD

Product Code: QUP073

This smart and capable front drag reel from Quick has been fully renewed and updated to include better cosmetics and improved performance. It benefits from the additions of better gearing and our proprietary Duragrease lubrication. The first generation of this reel is already a hit, so we made the good even better with this new evolution.

TECHNICAL DETAILS

- Fixed gear construction
- HD bail arm
- 5+1 steel ball bearings
- Graphite body and rotor
- CNC handle
- Double anodized spool

Trade Unit 1

Whether you're fishing for hungry predators, fast-moving trout or humble coarse fish like tench and chub – DAM has a specialist rod to help you achieve your goal. The DAM rod collection is constantly evolving, and this year is no different with a huge range of new and updated rod ranges brought to the market. Flagship rods like the Nanoflex Pro+ provide amazing casting, sensitivity and power to tame a wide range of species, whereas more niche items like the Adjustable Tele Trout II feature adjustable lengths to help you adapt to the conditions and stay out of sight of the fish you're trying to catch. DAM rods stand for quality, innovation and reliability – designed to be the perfect tools for the demands of anglers to help maximise their success.

ACTION

P = PARABOLIC

M = MODERATE

MF = MODERATE FAST

F = FAST

XF = EXTRA FAST

NANOFLEX PRO+

Product Code: DAQ158

Our flagship all-rounder spinning rod series for predator fishing just got even better. We took what was great about the three previous generations of the Nanoflex Pro+ and pushed it up another level with this latest version. Featuring an incredibly thin, powerful and lightweight TC30 nano carbon blank, the rod looks as great as it performs with a matt finish carbon cross wrapping and modern, gunsmoke coloured SeaGuide SiC tangle-free guides. There's a reason why we say this rod is the perfect all-rounder predator fishing rod – the nano carbon technology makes it easier to cast long distances with all kinds of lures and gives the blank a delightful moderate-fast action. They say: "if it ain't broke don't fix it", but we think 'they' just didn't try hard enough.

- Slim, light and powerful TC30 nano carbon blanks
- Matt finished carbon-cross-wrapping on the full blank
- Moderate-fast action
- Shiny black down locked VSS reel seat
- SeaGuide SiC tangle-free guides with gunsmoke frame
- Full cork handle
- High-grade black EVA foregrip with rubber cork finish
- Matt 1K carbon design features
- Rubber cork but cap

CULT-X

The Cult-X series is a very complete series with incredibly good value for money. By using slim and lightweight 30TC carbon blanks these rods feel incredibly well balanced. The fast action makes these rods perfectly suitable for lure fishing for perch, pike and Zander. The wide range also includes very light casting weights which are great for all lighter fishing disciplines like trout fishing or drop shot fishing. The series also includes a variety of casting models covering all techniques from vertical jigging up to heavy jerk baiting or big soft lures. The Cult-X rods have a very good looking cross woven blank finish and a fresh and recognizable white window which holds all the important information as well as the cool Cult-X logo.

- Sensitive and lightweight 30TC carbon blanks
- Modern K-frame guides + Micro guides
- Hi-grade cork and EVA handle
- Cross-carbon blank on the butt section
- Fast action

CULT-X SPIN

YAGI CLASSIC SPIN

Product Code: DAQ115

The DAM Yagi Classic rods are, as the name says a more classic looking variation of our very popular Yagi rods. But only the look is more classic, the Yagi Classic rods come with the same fast, slim and lightweight blanks and modern K-guides as the normal Yagi rods. The elegant and timelessly beautiful cork handles are held very slim and make these rods a pleasure to fish with for a whole day. The Yagi Classic series features a wide range of casting weights, ranging from the very popular ultra-light models with 1-5g up to the heavier versions for pike fishing with 30-80g. All together the Yagi Classic series is a very complete range, with great rods with excellent value for money.

- IM8 high modulus carbon blanks
- K-frame guides + Micro guides
- Laser engraved butt cap
- High grade EVA two-piece handle

YAGI

The DAM Yagi is the next generation of our extremely popular EFFZETT Yagi rods. For the new DAM Yagi we took a close look on the key components like blanks and guides. All blanks have been reworked to improve the already fast action and the sensitivity of these rods. One of the most significant changes are the much lighter K-guides that will come with all models. We kept the well-established color scheme as it is. Light grey and dark grey have been added for the new DAM Yagi Light Jig and Ultra Light Jig models.

All together the new DAM Yagi series offers a much better product in all points, be it design, action or the assortment itself.

- IM8 high modulus carbon blanks
- K-frame guides + Micro guides
- Laser engraved butt cap
- High grade EVA two-piece handle
- Fast action

YAGI LIGHT SPOON

Product Code: DAQ091

The DAM Yagi Light Spoon rods are specially designed for fishing with light spoons but can also handle other small lures like small soft lures. The incredibly sensitive carbon solid tips detect even the slightest bites and due to the semi-parabolic bending curve, these rods offer incredible safety while playing the fish and great fun even with smaller fish. Yagi Light Spoon rods are built with the same blank technology that is used for all our extremely popular Yagi rods. Equipped with low leg K-frame guides and a down-screw reel seat.

- IM8 high-modulus carbon blanks
- Carbon solid tip
- K-frame guides + Micro guides
- Butt cap with laser engraved DAM logo
- High grade split EVA handle
- Moderate action

SHADOW TELE

Product Code: DAQ092

The DAM SHADOW Tele rods convince not only with their very thin, light and fast 24TC carbon blank and the use of high-quality components, but also with their modern and timeless design. The Shadow Tele rods are equipped with light but resistant wrapped guides, which means that the action is much faster than with conventional telescopic rod rings. The rods are very good and balanced in the hand and the interaction of the camo-EVA fore grip with the classic cork handle makes the rods a real eye-catcher. The semi-parabolic action cushions head butts and quick escapes but still offers enough power reserves to land even capital fish safely.

- Slim, light and powerful 24TC carbon blanks
- Moderate-fast action
- Black anodized metal parts
- Light-weight single-leg wrapped guides
- High grade full cork handle
- Camo-EVA fore grip

SHADOW TELE MINI SPIN

Product Code: DAQ093

The name Shadow Tele Mini Spin is based on the characteristic feature that has made these fishing rods unique and extremely popular for many years. This feature is the incredible short transport length, which makes them perfectly suitable as travel rods or if fishing is not priority one on a day hiking in nature. With the Shadow Tele Mini Spin in the backpack there is no chance of missing out on making a few casts on a new and interesting fishing spot. The latest generation comes with wrapped guides instead of the old fashioned and heavy standard tube guides. This updated guide setup reduces the weight on the blank and due to that the already fast and responsive action feels even better. The timeless design and the use of quality components makes these rods a pleasure to fish.

- Slim, light and powerful 24TC carbon blanks
- Moderate-fast action
- Black anodized metal parts
- Light-weight single-leg wrapped guides
- High grade full cork handle

ADJUSTA TELE TROUT II

Product Code: DAQ136

Everything you loved about the original Adjusta Tele Trout rods has just been made even better thanks to the introduction of even lighter and slimmer blanks, an eye-catching new design and better quality finishing and components. The really special feature of these rods is the ability to adjust the length according to the river that you are fishing in. Small creeks with shallow water require stealth and subtlety, that's when the angler should use the full length of the rod to stay as far away from the water as possible. On bigger rivers with deeper water where stealth isn't as important, the angler can use the rod in its minimum length for more comfortable fishing. The Adjusta Tele Trout rods are equipped with a very sensitive tip to detect even the gentlest of bites, but at the same time, their backbone is strong enough to fight the trout of a lifetime.

- High-quality TC24 carbon blank
- Quality guides and Adjusta rubber inserts
- Black stainless steel metal reel seat
- Easy-to-clean, rubber-coated handle ensures perfect grip

PTS II DISTANCE

Product Code: DAQ161

These lightweight yet powerful carbon rods intended for distance fishing have proved so popular that we have added three new models to the range, covering casting weights from 5 to 25g. Particularly useful for fishing with bombardas, these rods give you real punch when looking to cast to the horizon.

- Bespoke guide set-ups according to casting weight
- 5-25g models: double-legged starting guide, single-legged guides to tip
- 10-50g models: double-legged guides along the whole rod

XT1

Although it might sound like a familiar marketing cliché, there really is something out of the ordinary about the XT1 rods, that simply makes them stand out. What makes the XT1 rods so convincing is simply how much rod you get for your money. Like the previous generation, also the latest XT1 rods are built with the same slim, lightweight and extremely powerful 24TC carbon blank that handles casting to enormous distances with ease. The updated XT1 rods are equipped with local Minima guides, which are not only much lighter than the old guides, but also offer a better performance and look.

A great side effect is that the decreased weight of the guides is directly resulting in an improved casting performance!

We dare say that there is a rod for everybody, because the range covers pretty much every need, from short and light until long and heavy, many with a size 50 starting guide. To round this anyway complete series of, there are 2 great telescopic models and beast of a Spod & Marker rod.

- Slim, lightweight and powerful TC24 carbon blanks
- Fast action
- Light, durable and modern local Minima guides with black frames
- High grade EVA foregrip and sanded non-slip rear grip for power casting
- DPS reel seat with black hoods
- Cross woven window pattern
- Black anodized aluminium butt cap

DETEK

The DAM DETEK rod series is the new flagship coarse fishing rod series within DAM.

Built with extremely slim, lightweight but powerful 24+30TC carbon blanks and equipped with high quality components such as SeaGuide guides, these rods offer an incredibly high level of performance. The wide range offers the right rod for the modern coarse angler to match nearly every situation. From the light and short Picker, to the parabolic Method Feeder and more powerful normal Feeder rods with actions ranging from light to xx-heavy, over to the super lightweight Match rods, the DAM DETEK series offers the right rod for every fishing style.

- Extremely slim, lightweight but powerful 24+30TC carbon blanks
- Matt blank finishing
- High quality SeaGuide guides
- Downscrow DPS style reel seat
- 3 carbon quiver tips
- D-shaped hook keeper
- Premium AA cork handle with EVA fore and rear grip

DETEK PICKER

Product Code: DAQ103

The DAM DETEK Picker has an extremely lightweight and semi-parabolic 24+30TC carbon fiber blank and is equipped with premium components, such as the incredibly minimalistic but strong and lightweight SeaGuide guides. The blank fully loads up already with lightweight feeders and easily catapults the rig to long distances. The 3 carbon quiver tips reliably indicate also softest bites and absorbs head shakes and fast movements of the hooked fish perfectly. The strong backbone offers enough power reserves to also stay in constant control of larger specimen.

DETEK METHOD FEEDER

Product Code: DAQ104

The parabolic action of the DAM DETEK Method Feeder rods makes them ideal for method feeder fishing. The rather soft action allows soulful casts to both short and long distances without losing the feed from the method feeder. Furthermore, the parabolic action ensures less hook pulls during the fight and optimally cushions sudden and violent bites. During the cast, the fast 24 + 30TC carbon blank recovers quickly and returns to its starting position, what makes it easier to make accurate casts repeatedly.

DETEK FEEDER

The DAM DETEK Feeder rods are developed for feeder fishing for almost all coarse fish such as bream, tench, barbel and carp. The powerful 24 + 30TC carbon rod blanks paired with a very fast action gives these rods enough power reserves and great casting properties which make it easy to reach long casting distances. The DETEK rod series should have the right rod for every purpose, from light casting weights for fishing in small ponds or streams, to the XX-Heavy Feeder, which is, with a length of up to 4.20m and casting weights of up to 240g, ideal to fish with heavy feeder cages on big rivers or other large bodies of water.

DETEK MATCH

Product Code: DAQ110

The DAM DETEK Match rods convince with a very thin blank diameter, light weight and the use of high-quality components such as SeaGuide guides. The rods have a great balance and the fast 24 + 30TC carbon blank makes it easy to reach excellent casting distances even with the lightest rigs. During the fight, the parabolic action cushions head shakes and quick runs safely what enables the use of thin leaders and main lines without the risk of losing a fish due to line breakage.

SENSOMAX II

The DAM Sensomax II series is the follow up on our very popular DAM Sumo Sensomax series. In close cooperation with our feeder fishing experts we developed every model from scratch. The Sensomax II series has faster, slimmer and more powerful blanks than its previous version and the design is reworked and modernized completely as well. The wide range of Quiver, Picker, Feeder, Match and Bolo rods covers everything from fishing small still waters for roach, bream or tench up to fishing the big European rivers for carp or barbel. Each Sensomax II Quiver, Picker or Feeder rod is delivered with 3 different tips in a protection tube. DAM Sensomax II rods are built by anglers for anglers.

- Powerful, slim and lightweight 24TC carbon blanks
- Hi-grade EVA fore grip and quality cork handle
- Down locked reel seat with black metal hoods
- Black guides with slim braid resistant SIC inlay

SENSOMAX II QUIVER & PICKER

The DAM Sensomax Quiver and Picker rods are the perfect choice for targeting fish like roach, bream, tench and small carp in ponds or small rivers.

DETEK EXTREME CARP POLE KIT

We've taken the hassle out of catching carp on the pole with our strong and reliable Detek Extreme carp pole kit. Made with high quality 40TC+30TC carbon that is as lightweight as it is strong, this kit includes two top kits and an extension section that can increase the overall length of the pole by 65cm. The first top kit has two sections and features a carbon reinforced section that allows you to drill a small hole into the blank to create your own pulla system. You can also fish elastic through the tip. The second top kit is also two-piece already set-up for a pulla system and feature PTFE brushing. With the Detek Extreme Carp Pole Kit you are practically ready to start catching carp straight out of the box – just attach a pole rig, and you are ready to go. It couldn't be easier.

- Lightweight, slim and powerful 40TC+30TC carbon construction
- Includes 2 2-section top kits
- Extension section to extend by 65cm
- High-quality finishings
- Supplied with convenient carry bag

IMAX ROD SERIES

IMAX rods are designed for the modern saltwater angler who demands the maximum from his equipment.

This series offers all the relevant rods for the popular Nordic style of fishing as well as special rods like the Tuna. Next to this there is a wide range of saltwater spinning rods. Tough enough to dominate hard fight fish in rough conditions without losing the finesse factor when detecting even the most careful bites. The slim, lightweight yet powerful TC24 carbon blanks are equipped with quality saltwater resistant SeaGuide components to provide excellent value for money.

IMAX INLINER BOAT

Product Code: DAQ148

Featuring a revamped design that incorporates a TC24 carbon blank, combined with high-quality components such as a rubberised reel seat and camo EVA handle, this rod is a true pleasure to fish with. Wherever your boat fishing takes you, the Inliner is right by your side, ready to give you the upper hand when you need it most.

- TC24 carbon blank
- SeaGuide starting and screw-in tip guide
- High-quality DPS reel seat
- High-quality camo EVA handle
- Rubberised reel seat
- Stainless steel line threader
- Supplied in a cloth bag

IMAX TRAVEL BOAT

Product Code: DAQ156

Why compromise on quality with a travel rod? After all, the fish you are trying to catch on your trip won't be giving you an easy ride just because you're using a travel rod. With that in mind, we have revamped our travel boat rod giving it a new camo design EVA handle and bolstering its power with a TC24 carbon blank. It also includes high-quality saltwater resistant components, so you know you can rely on it, even in harsh conditions.

- TC24 carbon blank
- Five-piece construction
- High-quality saltwater resistant guides
- High-quality two-piece aluminium DPS reel seat
- High-quality camo EVA handle
- Supplied in a cloth bag

IMAX TUNA

Product Code: DAQ157

We had only one thing in mind when developing a completely new blank for this rod: bluefin tuna. Anyone who has fished for them before knows they present a unique challenge, so we made this rod capable of comfortably fishing a wide range of lure weights from 60g to 135g. The rods offer long-distance casting performance, incredible fighting power and precise lure control – the perfect combination for catching bluefin tuna, or a wide range of other hard-fighting salty species.

- TC24 carbon blank
- High-quality, saltwater resistant, tangle-free guides
- High-quality DPS reel seat
- High-quality camo EVA handle
- Rubberised reel seat
- Cross gimbal butt cap
- Supplied in a cloth bag

IMAX SEATROUT

Product Code: DAQ149

As the name suggests, these IMAX rods have been made especially for sea trout fishing, and benefit from a semi-parabolic bending curve, which is key for extremely good long distance casting and fast blank recovery. Regular distance casting is a huge part of sea trout fishing and this rod can take the punishment. It also has fantastic sensitivity, giving you perfect feedback and control in every situation. This rod gives you all the tools to consistently catch more fish.

- TC24 carbon blank
- High-quality, saltwater resistant, tangle-free guides
- High-quality DPS reel seat
- Quality AA cork handle
- Rubberised reel seat
- Supplied in a cloth bag

IMAX SHAD & PILK

Product Code: DAQ150

Specially designed for fishing big, heavy soft lures in places like Norway, the North Sea and the Baltic Sea, the IMAX Shad and Pilk rods offer heavy-duty performance with no compromises. The slim and lightweight blank is packed with hidden power reserves to help you pump even the largest cod to the surface, while the unique tip action helps buffer head shakes from fish to vastly reduce the risk of losing them. The high-quality, saltwater resistant guides feature a special frame shape that all but eliminates tangles, leaving you free to concentrate on the battle at hand. These rods are also perfect for shallow water halibut fishing.

- TC24 carbon blank
- High-quality, saltwater resistant, tangle-free guides
- High-quality DPS reel seat
- High-quality camo EVA handle
- Rubberised reel seat

IMAX SW SPIN

Product Code: DAQ154

Whatever your preferred style of saltwater fishing, the IMAX SW Spin range has a modern spinning rod to suit your taste. All the rods in this series benefit from fast and sensitive actions thanks to their TC24 carbon blanks, perfectly complimented by high-quality components such as saltwater resistant, tangle-free guides. With this ideal blend of sensitivity, casting power and perfect bait control, the IMAX SW Spin rods are best-suited for targeting salty predators such as sea bass, cod and pollack from either the boat or the shore.

- Fast and sensitive TC24 carbon blank

IMAX SPIN

Product Code: DAQ152

Perfect balance, fast actions and optimum sensitivity to the feel the slightest touch and set the hook even on long lines – that's what the IMAX Spin 1+1 section rod range delivers. Designed for fishing with medium to heavy lures, the unique blanks of these rods also mean you can play fish with confidence without worrying about hook pulls or line breaks. They really come into their own for soft lure jigging, twitch baits, pencils, topwater lures and metal jigs, either from a boat or the shore.

SPEZI STICK II

The DAM Spezi Stick II rods are the latest generation of one of the most popular and successful DAM rod series of all time. The DAM Spezi Stick II rods are built with a totally new carbon blank, with a much better action, smaller diameter and lower weight as well as with more modern and slim guides. The fresh and modern design with the exclusive looking cross-carbon blank surface make the Spezi Stick II series a strong

successor. Even after all the improvements we made, the Spezi Stick II rods are available for a very attractive price and cover every fishing technique in freshwater. To make the identification of the various rods clearly and to facilitate the assignment, the respective target fish is printed directly on the rod blank.

FORRESTERFLY II COMBO

Product Code: DAH001

Since fly fishing is getting more and more popular, many people get inspired and interested in trying fly fishing for themselves. But a lot of beginners give up before they even started, because they don't know what they need, and they see that it seems to be very difficult to buy the right products and expensive at the same time. To eliminate both problems is exactly why the DAM Forrester Fly II Allround Fly Fishing Set is created. Everything that is needed to start the art of fly fishing is included in this set. Next to the good quality carbon fly rod with an aluminum reel seat there is an ABS graphite fly reel, which is already spooled with backing and fly line and a fly leader. Together with the flies in the small fly box that is also included, there is everything that is needed to start fly fishing for a very reasonable price.

- Four-piece carbon fly rod 2,70 m #5/6
- ABS-graphite fly reel #5/6
- Forrester Fly Backing 25lb/ 60m
- Forrester Fly Line WF5F (weight forward, floating)
- Forrester Fly Leader
- Fly box including flies

CROSSPOWER BRAIDS

With the Crosspower Braid DAM offers a high quality braided line in 4-braided and 8-braided construction for an outstanding price-performance ratio.

Crosspower Braid lines are braided with the most modern technology available and following highest quality standards, what makes them extremely versatile.

Among the available diameters of 0.10mm up to 0.22mm, there is always the right line, be it for light spinning for trout and perch or for heavier pike fishing.

DAMYL® TECTAN SUPERIOR MONOFILAMENT LINES

The DAM Damyl Tectan may very well be one of the oldest, established monofilament lines on the market today. One of the reasons for this success is undoubtedly that the brand evolved its lines according to the latest trends and technology. One of

the most remarkable features is the special and secret UV-protection treatment that makes the Tectan lines more durable and superior than other, ordinary monofilaments.

DAMYL® TECTAN SUPERIOR 25M

Product Code: DAT001

- UV-protective surface treatment
- Low visibility
- Low memory
- Super abrasion resistant
- Medium elongation

SALT-X SANDEEL BLADE

Product Code: DAK002

The body profile of the Salt-X Sandeel Blade is a perfect imitation of a real sandeel. The slim blade shaped body makes the lure perfect for extreme distance casting and gives the lure a very attractive and erratic action. The key for triggering the most aggressive strikes are short spin stops every now and then. Already at the shortest spin stops the Salt-X Sandeel Blade immediately has an irresistible 360-degree rotation that sends out huge pressure waves and an immense flash under water.

TECHNICAL DETAILS

- Extremely realistic body profile
- Perfect long cast design
- Bright and flashing UV colors
- Lively action
- Intense 360-degree rotation on the drop
- Ultra sharp saltwater proof treble
- 100% lead free

SALT-X MACKEREL CASTING JIG

Product Code: DAK003

The DAM® Salt-X Mackerel Casting Jigs and pilks based on the body profile of a real mackerel and come with very realistic details.

The casting jigs are specially designed for casting long distances from the shoreline and available in 30g, 50g and 70g. They come with a front assist hook and a treble hook in the back-ready to use right out of the package. The carefully balanced bodies create a strong and erratic wobbling action that is perfect for drawing the attention of any saltwater predators. Salt-X Mackerel Casting Jigs have an incredibly wide speed window and can be fished in many ways: fast retrieve, erratic jerking or jig and drop style where the fish hit it while it flutters down horizontal to the bottom, creating the natural flashing action of a dying bait fish.

TECHNICAL DETAILS (CASTING JIGS)

- Extremely realistic body profile
- Perfect long cast design
- Lively action
- Bright and flashing UV colors with printed details
- Erratic flutter and flash action on the drop
- Ultra sharp saltwater proof EFFZETT treble
- Ultra sharp saltwater proof EFFZETT braid assist hook.
- 100% lead free

SALT-X HERRING PILK

Product Code: DAK008

The Salt-X Herring Pilks are designed for vertical fishing from a boat available in 100g and 150g. They are equipped with a 6x strong saltwater proof treble that can easily deal with the biggest deep-sea monsters in the oceans. The Salt-X Herring Pilks have a slow erratic fall with a strong flutter and flash action, that creates huge pressure waves and a deadly attraction for all saltwater predators.

TECHNICAL DETAILS (PILKS)

- Extremely realistic body profile
- Bright and flashing UV colors with photo printed details
- Erratic flutter and flash action on the drop
- Ultra sharp saltwater proof 6x strong EFFZETT treble
- 100% lead free

SALT-X PILK/BLADE LURE

Product Code: DAK009

Fabulously looking lead fish that can be used in the classic, traditional way (hanging head down) or... as a blade lure for a narrower, more aggressive action. How to fish it simply depends on the fishing conditions, type or even the mood of the targeted fish. Features a high quality, 6X strong, salt water resistant treble.

SPEZI LEADERS

For each popular fish species, fishing method or bait we have composed the ideal leader, using the most suitable hook model and best matching Tectan Danyl Superior monofilament line per species or method, in the ideal length. Each model is available in different sizes, to meet different local fishing conditions. For everybody's convenience we placed a picture of the targeted fish species/method/bait on the packaging.

TACTIX RIG COMBI

Product Code: DAT041

This rig has been the downfall of many big carp over the years. The stiff part of the coated hooklink (25lb) makes it difficult for a carp to eject the bait/hook.

DETEK

DETEK CAMO FEEDERS

DAM offers a full range of high quality feeders (including method feeders and mold) for the professional feeder angler. All kinds of models, in a wide range of weights, in attractive looking, yet concealing camouflage.

DETEK FLEX FEEDER WITH SWIVEL

Product Code: DAT050

The perfect feeder cage to fish unnoticed even in clear waters. The camouflage design of the cage makes it practically invisible under water. Through the many openings, the water can quickly penetrate the cage so that the bait is quickly pressed out of the cage. The built-in swivel helps to avoid tangles.

ITEM NO.	SIZE	WEIGHT	PCS	PRICE

Trade Unit 1

DETEK FLEX FEEDER INLINE

Product Code: DAT104

The DAM DETEK Flex Feeder Inline is perfect for fishing with a 10cm long DETEK method rig. Especially when you are fishing on a natural lake, "normal" bait can sometimes be an advantage over ready-made groundbait. You can also present bread flakes and soaked pellets perfectly with this cage.

Trade Unit 1

DETEK METHOD FEEDER INLINE

Product Code: DAT051

The ribs of the DAM DETEK Inline Method Feeder are ideally suited to safely transport both method groundbait and soaked pellets to the fishing spot. Once at the bottom of the water, the DETEK Inline Method Feeder quickly releases its load, the fish can quickly find and suck in the groundbait and, of course, the hook bait. In connection with our Method Feeder Mold in the appropriate size, weights of the same size are always achieved, which enables precise casting. The aerodynamic design makes accurate throwing easier. Instead of the swivel, our DAM DETEK Quick Change Bead can also be used.

Trade Unit 1

DETEK PELLET FEEDER INLINE

Product Code: DAT055

The inline version of the DAM DETEK Pellet Feeder has been specially developed for fishing with pellets. The aerodynamic design helps to throw the basket precisely at the spot. In addition to pellets, this feeder can also be used to cast sticky maggots. Due to the half-open design, the pellet feeder is easy to fill with one hand. Instead of the swivel, our DAM DETEK Quick Change Bead can also be used.

Trade Unit 1

DETEK MAGGOT FEEDER WITH SWIVEL

Product Code: 66037

As its name suggests, the DAM Maggot Feeder with Swivel is designed for feeding loose maggots. These crawl out of the holes little by little and provide the fish with the little crawlers. Through the adjustable holes, the feeder cage can be adapted to the situation. Due to the center of gravity at the end, the cage flies very stable and thus ensures precise casts. The swivel prevents tangles.

Trade Unit 1

DETEK PELLET FEEDER ELASTICATED

Product Code: DAT054

The DAM DETEK Pellet Feeder Elasticated has been developed for fishing with pellets. The built-in elastic protects the fish in the fight because the elastic works as a shock absorber. The aerodynamic design helps to throw the basket precisely at the feeding spot. Apart from pellets, this feeder can also be used to transport sticky maggots to the site. Due to the half-open design, the pellet feeder can be easily filled with one hand.

HAMMERHEAD LANDING NET

Product Code: DAN001

Our „Bärenstark“ or Hammerhead landing nets are most probably the sturdiest and most durable landing net in the world since years! Now the best has become better with a new three point connection in the landing net handle. These high quality landing nets have a cast aluminium link which secures the net frame to the pole. The sturdy folding mechanism can be operated with just one hand. At the touch of a button, it can be opened and folded down again to save space. Available in a two and three section telescopic handle and manufactured of bend resistant aluminium and can be smoothly locked in position with a twisting action. The rubberised nylon net is stretched open with strong perlon wire ready for the catch. The rubberised net has several advantages: The hook can easily be removed, it sinks quickly in the water, it don't get tangled and it can easily be cleaned with no remaining smells.

- Easy-to-handle, foldable ultra strong aluminium head
- Rubber coated mesh
- Secure handle locking system to change the handle length
- Very strong and weight optimized handle
- Compact transportation size

CROSSPOWER LANDING NET

Product Code: DAN002

This compact telescopic landing net series has lots to offer for today's active angler. The versatile nets are durable, compact to transport, easy to handle and feature mesh with a rubber coating. Thanks to this rubber coating, the net is unable to absorb water and thus can be stowed away directly after fishing without getting stinky. It is also makes the net lighter when it is used frequently during the fishing day. Another advantage is that the hook will not get tangled in the mesh as easy as with commonly used nets. This series is the perfect partner for mobile predator anglers! Available in a two and three section telescopic handle and in five different sizes.

- Easy-to-handle, foldable nylon-graphite head
- Rubber coated mesh
- Secure Cam-Lock handle locking system to change the handle length
- Very strong and weight optimized handle
- Compact transportation size

BIG FISH NET FOLDABLE

Product Code: DAN006

The DAM Foldable Big Fish Net is a very practical allround landing net where also the biggest fish will fit in easily. The problem of fitting the net in the car or having problem while carrying big nets to the spot have an end now. This is because the frame is foldable and can be reduced in size by 50% with this function. The handle can also be moved up once the net head lock is unlocked. This is helping to reduce the size even more. The net material is fast drying and with a hole diameter of 10mm the net can be moved easily through the water.

FLOATING LANDING NET XL

Product Code: DAN010

The DAM Floating Landing Nets have been proven to be very successful and with the XL version this range is complete. The long handle (110CM) makes it easier to land the fish while fishing in a Belly Boat or when the angler just need a couple of extra centimeters to land the fish of a lifetime. It is also a great help for unhooking fish because the net can never get lost. The rubber mesh solves the problem of hooks getting stuck in the net, dries quickly and is practically resistant to any smell. The fabric around the frame minimizes the chance of losing a fish during netting because the hook gets stuck in the mesh.

EXTREME NYLON NET

Product Code: DAN008

The DAM Extreme Nylon Net, the name already explains it. A heavy duty net with an aluminium handle and frame where also the biggest fish will fit in easily. The special mesh is made of a special nylon cord which is very durable, has a big mesh and doesn't tangle with hooks. The handle can be moved up once the net head lock is unlocked. This is helping to reduce the size during transport. The special net material is fast drying and with a mesh diameter of 40mm(!) the net can be moved easily through the water.

FLOATING LANDING NET

Product Code: DAN011

The DAM Floating Landing Nets are floating with the full frame on the surface. This is a great help for unhooking fish because the net can never get lost. The rubber mesh solves the problem of hooks getting stuck in the net, dries quickly and is practically resistant to any smell. The fabric around the frame minimizes the chance of losing a fish during netting because the hook gets stuck in the mesh. The 3 available shapes cover all fishing styles from fly fishing, to seatrout fishing or spinning for predators.

QUICK RELEASE CONNECTOR

Product Code: DAN032

It's not often that such a simple but effective product can make fishing so much more comfortable. The angler hangs his fly net in one of the clips and the other clip goes into the eye on the back of his fly vest. When he needs the net, all he has to do is pull on it and he's ready for action. The elastic is just to make sure that the can't lose the net (for instance if he has to walk through bushes or if he is standing in deep, running water).

HI-T PRO ALARM SET:

THE ULTIMATE COMBINATION OF STYLE,
SIMPLICITY AND FUNCTIONALITY

Product Code: DAD012

A DAM® Hi-T PRO multi-color LED alarm set offers modern design, ease-of-use and every thinkable feature the modern-day angler can wish for, including anti-theft alarm, out of reach alarm, a light house LED and telescopic snag ears. It is so self-explanatory that everybody can use it straight out of the box: every function has its own switch, button or dial knob. It is rated IP66, which means it is not sensitive to dust and even heavy rain will not have any effect on it. A Hi-T PRO alarm simply does what it is supposed to do, at any circumstance, without fail.

Also available as a single alarm, to extend to a 3+1 or 4+1 set.

- "Click" dial knobs (for adjustable volume, tone and sensitivity)
- Seven equal volume steps, ranging from completely silent (0) to very loud (7)
- Seven equal tone steps, ranging from very low (0) to very high (7)
- Seven equal sensitivity steps, ranging from hypersensitive (0) to very insensitive (7)
- Mute function (sound and/or light)
- Double tone for drop backs
- Multi-color LED (for runs)
- White LED (for drop backs)
- Red light house LED on the backside of the alarm
- Waterproof (IP66)
- Reach: up to 150 meter
- Out of reach alarm
- Anti-theft alarm
- Low battery alarm (alarm and receiver)
- Low battery consumption
- Telescopic snag ears
- Rod-protective rubber inlays
- Socket (2,5mm) for illuminated hangers or swingers
- Including receiver carry strap
- Requires 2 AAA batteries (not included)

HI-T BITE ALARM SET

Product Code: DAD004

The ultimate combination of style, simplicity and functionality.

Our Hi-T alarms have gained quite a reputation since their introduction a few years back. They feature all standard functions you would expect from a modern-day bite alarm... and much more! Aside from the adjustable volume, tone and sensitivity we added a dedicated dropback LED and tone. It conveniently tells you whether or not you had a liner or an actual dropback take, even at 3AM in the night, when you're lying in a warm sleeping bag. On the rear of the alarm there is a lighthouse LED, allowing you to safely navigate back to your swim by boat during darkness. The roller features a built-in night light that offers a subtle glow when activated. We have also included metal screw-in snag ears.

Alarms and receiver both require a 9V battery (not included).

Range: 100m

Available in 3+1 (multi-color or "all blue") and 4+1.

Multiple alert and audio configurations can be selected:

- Alarm LED and audio
- Alarm LED only (silent)
- Alarm audio only (no LED)
- Alarm no audio or LED (alert on receiver only)

Features:

- Dial knob adjustable volume, tone and sensitivity
- Mute function (sound and light)
- Different sound and light for dropback bites
- Lighthouse LED (red) on rear
- Night light
- Low battery consumption
- Removable snag ears

U4X BITE ALARM SET

Product Code: DAD007

Sets of a receiver and alarms with adjustable volume, tone and sensitivity. To set the volume and sensitivity there are two, easy to reach king-sized dial knobs. On the left side of the housing there are two push buttons: one to set the tone (T) and one (L) to switch on/off the lighthouse LED on the back. After having rowed out the bait, that blinking LED enables you to easily find your way back to your swim. The 3-way switch at the bottom is easy to reach, easy to operate and, most of all, easy to read: to the left is "on", in the middle is "off" and to the right is "mute". Drop back indication by light and sound (white LED and a double tone). The reach of the transmitter is at least 100 meters. The receiver has sound, light and vibration bite indication. Alarms and receiver are rain proof. All in all, alarm sets that are easy to understand, easy to operate but still have all the modern features you need to fish as effectively and comfortably as possible. The alarms work on two 1.5V batteries (AAA) and the receiver too (not included).

- Adjustable volume, tone and sensitivity
- Drop back indication by light and sound
- 3-way switch (on/off/mute)
- Blinking lighthouse LED
- Range over 100 meters
- Rain proof alarms and receiver
- Receiver with sound, light and vibration bite indication
- Low battery consumption

ROD TIP PROTECTOR

Product Code: DAA031

Rods are always very vulnerable, especially the tips. There is nothing more annoying than a broken rod tip because of a small accident during transport. We found the perfect solution for that: the DAM® Rod Tip Protector. After you've taken apart a two-piece rod, put the sections next to each other and simply slide the protector over the tip and butt section. The protector is padded and can be closed by Velcro tape. 100% Polyester.

DIGITAL SCALE 25KG

Product Code: DAA036

T-bar shaped, digital scale, for weighing fish up to 25 kilos. It has a large LCD screen that displays in pounds and kilos and gives you a battery level indication. It also stores the heaviest weight. The tare weight function allows you to set the weight at zero with the weigh sling already attached, to exclude its weight. Requires 2 AAA 1.5V batteries (not included). A power saving feature will automatically shut off the scale after 60 seconds, to prolong the battery life. Weighs up to 25kg/55lbs fish. Accuracy: 10g.

- Big, illuminated LCD display
- Displays in pounds and kilos
- Stores heaviest weight
- Easy to use tare function, to exclude the weight of the sling
- Automatic power OFF (after 60 seconds)
- Accuracy: 10g
- Water resistant

ELASTIC ROD PROTECTOR
Product Code: DAA024

The DAM Elastic Rod Protector is the solution to the long time existing problem of losing rod straps. It protects the tip and butt section of the rod and it is mounted on the rod within a few seconds. The advantage is that it is impossible to lose one rod strap because of the elastic band, which is connecting the two protectors. To avoid the elastic tape to tangle with other gear, a small Velcro strap is added to fix the elastic to the rod.

XT1 CARP CARRALL ASSORTMENT

Product Code: DAL062

No matter how your customers prefer to fish, you can offer them an organization solution to match their needs with this value-for-money bundle of high-quality luggage. Comprising no less than 15 individual bags in three different sizes, there is something to suit every taste. Each bag features four outer pockets and one main compartment, which benefits from a new U-shaped zipper for easier loading and unloading. This season, the bags are designed in a stylish olive green colour, making them even more appealing to a wide range of anglers. Besides plenty of storage space, the bags are also made from a durable, long-lasting fabric.

If you are a high-volume seller, this luggage bundle is perfect to help your customers keep their fishing tackle organized.

- 15 single bags in three different sizes
- Four outer pockets and one main compartment for endless storage possibilities
- Made from high-quality fabric (100% polyester)
- Each bag comes packed in a polybag with a barcode sticker

INTENZE LUGGAGE

The DAM Luggage can be truly described a success story, ongoing for many years. To continue this success story the time was right to modernize the DAM Luggage range in all aspects. Starting with the range itself and the available models, followed by the quality and features of the whole range and rounded off by a new, modern and appealing design.

MATERIALS:

On all DAM Luggage models, the main compartment as well as the bottom sides of the outer pockets are made of a new waterproof material (dark grey) to protect the equipment inside as good as possible. The smooth surface makes it super easy to clean.

The outer pockets also use two new fabrics, one olive green rip-stop fabric to keep some green accents in combination with a high quality 600D fabric used on the outer pockets and lids of the bags.

INTENZE TACKLE BAGS

Featuring a fresh and modern design these tackle bags offer several useful compartments as well as a number of integrated hard PVC boxes for any kind of lures and terminal tackle. While the small and medium one has mainly been developed for the active spin angler walking along his fishing water, the large bag is mainly thought for the boat angler who carries a lot more of equipment!

INTENZE BACK PACK

Product Code: DAL009

The very versatile DAM Back Pack is comfortable to carry and is full of features. 4 horizontal packed lure boxes make space for a variety of lures. The main compartment offers rooms for food, camera and all other kind of equipment. The front pocket is ideal to store things like your mobile. On one of the side pockets, you will find a box for small tackle like swivels or hooks, the other pockets keeps your keys and other little things. The thick padded shoulder straps avoid a sour back after a long day fishing while you have your hands free.

TECHNICAL DETAILS

- Backpack made of 100 % Polyester

Product Code: DAL028

The DAM® Rod Bag Assortment is an extremely interesting bundle offer, which includes 15 individual rod bags in 3 different sizes. The green 400D fabric gives these rod bags a timeless and modern design, which is appealing to almost every angler, be it predator or allround anglers.

The huge single main compartment offers enough space for 3 rods. The attached Velcro straps on the inside and the 2 fabric partitions offer great protection for the rods. The large outer pocket in the front easily holds a landing net and bank sticks and the zipper makes it easy to get even the shortest bank sticks out easily. The mesh pocket on the back side even offers a solution to store a wet carp sack or a dirty towel separately.

Thanks to the adjustable shoulder strap with rubber shoulder pad it is very easy and comfortable to carry the bag even to a distant fishing spot. The amazing value for money of this 15pcs rod bag assortment makes it a truly incredible business opportunity.

- Includes 15 rod bags
- 3 different sizes 1,00m, 1,25m and 1,45m (5pcs each size)
- Large main compartment with 2 fabric partitions and Velcro straps
- Long outer pocket with zipper and buckle in the front
- Zipped mesh pocket for wet or dirty things on the back side
- Adjustable shoulder strap with rubber shoulder pad for comfortable transport
- Made from high quality dark green 400D fabric (100% polyester)
- Dark green DAM® zipper pullers, zippers and webbings
- DAM® rubber logo
- Important: Each rod bag is packed in a polybag with barcode sticker.

IMAX OCEANIC QUIVER COMPETITION

Product Code: DAL047

When you're a competition angler, you can't leave anything to chance. That's why we created the IMAX Oceanic competition quiver – a bag designed to carry and easily transport everything a competition angler could need. This spacious quiver can be packed in many different ways with its two zipped compartments, carrying either eight rods, or a combination of rods, shelters and tripods all within its padded frame. The quiver also features a new, fully adjustable shoulder strap and dual carry handles, which means it will always be balanced and easy to carry, no matter how fully loaded it is.

- Fully padded quiver carries up to eight rods internally
- Fully adjustable shoulder strap and dual carry handles
- Two adjustable retaining straps
- Three-quarter length zips for easy loading
- Toughened, waterproof base for durability
- Made of 100% easy-to-clean 600D coated polyester

Trade Unit 1

IMAX ICONIC COMPETITION BEACH SHELTER

Product Code: IMS001

The Ultimate beach shelter giving full weather protection for upto 2 people due to its unique design which can be adjusted to suit the angler. Set up from the floor up means that it can be erected in strong winds without fear of it blowing away. Folding down into a neat compact bag allows for it to be transported easily in a boot of a car and on the beach with built in carry handles. The rigid frame work is self-supporting without pegs but it has several pegging points and a sand skirt which can be used in the worst weather conditions for security. Once erected the shelter can be spread out to accommodate another angler and with its angled frames means that more of the shelter is usable for storage of equipment. Each side externally has rod holders for spare rods or when baiting up.

- Super light-weight beach shelter
- Set up from the floor up
- Pegging points and sand skirt
- External rod holders
- Accommodates 2 anglers and kit
- Packs down small for transport and storage
- Comes in storage bag with handles

CAMOVISION BELLY BOAT INCL. AIRPUMP

Product Code: DAC002

The DAM CamoVision Belly Boat does not only look extremely cool, it also offers a lot of safety and space for the angler. The boat has 2 separate air chambers as well as the seat and back-rest which have a high buoyancy as well. Even if a hook would get stuck in one of the chambers, the other air chamber and the seat will have enough buoyancy to support the angler to get back to the bank safely. The CamoVision Belly Boat is equipped with 2 side pockets which are attached to the boat on a not disturbing and easy to reach position what gives the angler plenty of space for fishing.

Outer fabric made from high quality 600D CamoVision polyester, inner tubes made from 100% PVC.

- Strong 600D CamoVision material (100% polyester)
- 2 inflatable air chambers (100% PVC)
- 2 side pockets, attached
- Comfortable seat and back-rest
- 2 thick padded shoulder straps for longer transport
- Carry handle at the bow
- Dimensions: Length 140cm x Width 115cm
- Weight: 5,20kg
- Including air pump

DRYZONE GLOVE

Product Code: DAG041

Keeping your hands warm and dry is easier and more comfortable than ever thanks to the DAM Dryzone gloves – the perfect all-rounder no matter where your fishing adventures take you. Fully waterproof, the gloves still retain a slim design to give you optimum feel and movement of your hands, while the elasticated wrist ensures a snug fit. An ideal glove for a wide range of fishing situations, whether static on the bank or roving from swim to swim.

- Waterproof design
- Reinforced fingertips and palm
- Soft and comfortable material
- Elasticated wrist for snug fit
- 50%polyester/40%nylon/10%elastane

NEOPRENE FIGHTER GLOVE

Product Code: DAG044

Get the great benefits of neoprene gloves at an accessible price with the DAM Neoprene Fighter glove. Featuring a rubberised pattern on the fingers and palm for a non-slip grip, the gloves will always have a snug fit thanks to the Velcro wrist adjustment. Also featuring fold-back tips on the index finger, middle finger and thumb, for easy knot tying or other fiddling fishing tasks.

- Warm neoprene material
- Rubberised palm for great grip
- Adjustable Velcro cuff
- Fold-back tips on two fingers and thumb
- 50%polyester/20%polyurethane/20%nylon/10%elastane

WINDPROOF HALF FINGER

Product Code: DAG045

When keeping warm is the primary concern, these gloves have you covered – and at a price point that is accessible to almost all anglers. Made from a soft fleece material, these gloves will keep your hands warm and protect them from the elements, while the half-finger design means you can keep that sensitivity and do fiddly things like tying knots easily.

- Soft and warm fleece
- Windproof
- Half-finger design for increased dexterity
- 100%polyester

GIVE YOUR SALES A HELPING HAND

Whether your customers are fly fishing fanatics, lure lovers or carp connoisseurs, our new all-encompassing range of gloves will have something to help them.

Gloves are probably not considered the most exciting products in the world, but you can make them exciting with our stylish and eye-catching display, which will help increase interest in them in your store.

This high-quality, free-standing display can be placed almost anywhere in your store and is perfect for reminding your customers that actually, yes, their hands were pretty cold last time they went fishing.

Perfect to stand near the counter or in another high-traffic spot, this display will help you cash in some extra sales that many anglers will be happy to add-on to their other purchases without any fuss.

EFFZETT®

There probably isn't a fishing tackle box out there that hasn't had an Effzett spinner inside it at some point during its life. This classic, million-selling lure design is still performing as well for anglers today as it did when it was first introduced all the way back in 1933. The perfect shape and design of the blades have been proven to catch fish all around the world. While we still make those classic spinners, which have since had some smart modern tweaks applied to them, Effzett offers much more than that. The brand now features a full range of modern and innovative lures, high-quality clothing and much more. We've come a long way since the humble spinner – though that spinner still gets tied onto our line on a regular basis because it's just so effective.

SPINNERS

We are proud to be able to say that the working characteristics of all our spinners have been developed to absolute perfection. The shapes of the blades and the technology behind have been proven over the years with millions of sales around the world. The balance between the body and the spinner blade results in a streamlined, dynamic unit that is ideal for extra long and precise casts. Our range is continuously being supplemented by successful new designs based on ideas received from angling fans and our teams of angling professionals on location. Use EFFZETT® spinners with absolute confidence!

When the spinner is retrieved through the water, it sends out constant pressure waves that can be recognized by predatory fish from long distances, encouraging them to attack. Compare the working characteristic and these models will convince you.

FLUO SPINNER

Product Code: EZK003

These spinners belong in every tackle box, especially in low light conditions or in murky waters. Switching to one of these fluoro colours can be the difference between a wet or dry net.

NATURE 3D SPINNER

Product Code: EZK008

The Nature 3D series we allows the angler to target specific predatory species. They present an extremely realistic imitation of all common types of bait fish, with the complex 3D decoration on the blades making these spinners appear much more life-like underwater.

SINGLEHOOK SPINNER

Product Code: EZK009

More and more trout waters are now adopting a single hook rule. Therefore we also offer seven successful spinners in three sizes each with single hook.

TANDEM SPINNER

Product Code: EZK010

Our popular EFFZETT® Tandem Spinner features a clever connection design, meaning you actually have three spinners in one! Fishing them as a complete tandem is one of the most effective methods for pike, but you also have the option of removing the lower big spinner to use the smaller one as a perch or trout lure. Or simply use the large spinner on its own for zander.

STRIPE FIRE SHARK SILVER/RED

PREDATOR SPINNER

Product Code: EZK011

This long spinner blade runs with only a slight pull and spins tightly around the bait, making it especially effective in shallow water.

UV-SPINNER

Product Code: EZK013

That the EFFZETT® UV-Spinners have only 4 basic colors gives them a kind of hand-made and classic look, but there is one small but important detail that makes these spinners irresistible for every predator. These spinners come with an UV-active feather treble that is very visible for the fish and at the same time the treble is the strike point for the fish, what increases the hookup ration a lot.

FAST WATER SPINNER

Product Code: EZK014

The EFFZETT® Fast Water Spinners are specially designed for fishing in fast running water. The heavy body in combination with the slightly longer blade gives these spinners an extremely stable action in heavy current and allows the angler to fish deeper than with a normal spinner.

TWIN SPOON

Product Code: EZK026

With four-fold catching attraction this ingenious development has produced sensational results across the world. In test angling the results were more than convincing.

THE SECRET OF SUCH SUCCESS IS BASED ON THE INGENUOUS FOURFOLD ATTRACTION:

1. The additional vibrations in the water caused by the jet-like effect of the double blades
2. The acoustic attraction from the continuous contact between the two fluttering spinner blades
3. The original EFFZETT® Spoon blade, well proven with over one-million sales!
4. The extremely effective surface decoration of the original EFFZETT®

HEINTZ SPOON

Product Code: EZK030

The wobbling movement and the unique suspension of the Trout double hook are the secret behind over sixty years of uninterrupted success. It makes the fish believe they're seeing an attractive prey.

WEEDLESS SPOON

Product Code: EZK031

The insider tip for heavily weeded waters. The extra sharp double hook is covered by a flexible metal clasp. You can fish in even the thickest fields of weeds without fear of getting snagged.

STANDARD SPOON SLIM

Product Code: EZK072

When distance counts and the water is fast flowing, the EFFZETT® Slim Spoon is the perfect choice. Its aerodynamic shape makes it ideal for long-range casting. With gentle, meandering movements it entices sea Trout and salmon just as effectively as it attracts zander and pike.

MADCAT

Lurking in the murky depths of Europe's rivers, ponds and lakes lies one of the continent's biggest predators. They can be more than two metres in length and weigh more than 100kg and have a diet that includes crustaceans, fish of all sizes and even pigeons and ducks – it's no wonder the catfish is considered one of the apex freshwater predators of the continent. The catfish represents one of the ultimate challenges for anglers and catching them has been steadily growing in popularity over the last decade. But it is no job for mere regular fishing tackle – you need specialist equipment to fight these brutal leviathans – and that's where MADCAT comes in.

Some years ago, the team at DAM identified a growing number of anglers attempting to catch monster catfish around Europe and they decided that some proper tackle for the job was needed. The MADCAT brand was launched soon after and has since become synonymous with some of the most famous and impressive catfish catches all around Europe. If you want to catch the catfish of your dreams, MADCAT can help you achieve it. We have created an all-encompassing range offering rods, lures, lines, terminal tackle, bite indicators, luggage, bivvies, bedchairs, clothing and a whole host of other accessories, all designed to withstand the rough and ready world of catfish fishing. Whether you are fishing from the bank or from a boat or other watercraft, MADCAT has specialised kit that makes it possible to stir up the giants of the deep and to get them on your unhooking mat.

Because MADCAT was there right at the beginning of the modern European catfish fishing trend, the brand has helped to shape and guide the phenomenon by creating products that offer true solutions to the problems that catfish anglers encounter. We have sourced input from some of the most creative and determined anglers from in this field and our combined efforts have seen MADCAT achieve things that a catfish-specific brand could only dream of – such as winning international awards at European fishing trade fair EFTTEX.

MADCAT continues to innovate and continues to push the boundaries – our pioneering attitude rubs off on every angler who uses our products. Catfish fishing is not for the faint hearted – it is for the brave, for the ambitious, for those who would choose MADCAT.

MADCAT

Taming a monster catfish is no job for just any ordinary fishing rod, you need specialist equipment that can handle the brutality of the fight, and MADCAT has you covered. Our legendary Black Series of catfish fishing rods has become iconic in the sector thanks to super-powerful blanks, high quality components and models designed for niche styles of catfish fishing, such as from a bellyboat. This range is supported by the hugely innovative Green Series, which has recently been given a full makeover, with not only improved cosmetics but lighter and faster blanks, premium components from Fuji and SeaGuide and smart features like king-size butt caps for comfort when playing big fish. Whatever your style of catching big catfish – be it with pellets, pelagic, or even with a baitcaster – we have a rod specifically designed for your purpose.

MADCAT

WHITE X-TAAZ ROD SERIES

For those catfish anglers who only want to fish with the best of the best MADCAT® introduced a limited range of rods called: the White X-TAAZ Series. Attractive and functional design: the tapered, carbon cones make it remarkably easy to clean the rods from catfish slime. Made with high quality components, including Japanese Toray blanks. Every MADCAT® White X-TAAZ rod excels in every thinkable way: design, strength, balance, weight, reliability, durability, sensitivity and power. Cast further, feel more takes, apply more power and... catch more and bigger catfish.

WHITE X-TAAZ FAR OUT

Product Code: MCQ001

Ideal rods for fishing at a distance with buoys. Very powerful yet sensitive meaning: rigid enough to keep a long braid out of the water but shock absorbent enough to wear even the heaviest and hardest fishing catfish down. Made of 30 ton, Toray carbon, an original Fuji® DPS-H reel seat and SeaGuide® guides.

EXTENDABLE BUTT

WHITE X-TAAZ VERTICAL EXT.

Product Code: MCQ002

Specially designed for vertical jigging. The White X-TAAZ Vertical Ext. 170 might well be the most remarkable MADCAT® rod the guys behind MADCAT® have developed until now. The key feature here is the extendable butt! A short counter clock-wise twist allows the angler to extend the butt. To fixate it again, at the desired length, a simple clock-wise twist will do. The advantage is enormous: during the vertical jigging the short the butt end allows maximum freedom of movement. During the fight the extended butt, literally, provides more leverage. Made with a 30 ton, Toray carbon blank, a Fuji® reel seat and SeaGuide® guides.

WHITE X-TAAZ SPIN

Product Code: MCQ004

Powerful yet lightweight and sensitive rods are needed to enjoy casting heavy catfish lures, to feel a take and, also, to set the hook and control the catfish. The challenge was to combine and balance all these different and sometimes even conflicting properties and characteristics. But... we managed to do exactly that. What great rods the WHITE X-TAAZ rods turned out to be. They say "seeing is believing" but in this case it's more appropriate to say "feeling is believing". Made with a 30 ton, Toray carbon blank, a Fuji reel seat and SeaGuide® guides.

LOW FRICTION
COIL

WHITE INLINE MULTIPLIER LFC

Product Code: MCQ007

MADCAT® inline rod with a trigger reel seat (PSSM, original Fuji®) that is specially designed for vertical jigging and heavy fish. Made with a 30TC nano carbon blank with inside a low friction coil (LFC), which is better for the line. Less friction inside the blank also means that the power from the fish is transmitted to the reel better, improving the drag function.

WHITE DELUXE G2

Product Code: MCQ006

The second generation of the white MADCAT® Deluxe rods. Specially designed for fishing with break lines at medium distance. Also ideal for fishing at the bottom of big, fast flowing rivers, like the Po or the Rhine. Long, semi-parabolic and practically unbreakable because of the nano carbon. But we didn't only improve the look of these rods, we also changed the guides to a more subtle but extremely heavy duty SeaGuides.

TECHNICAL DETAILS

- 24TC nano carbon blank
- Semi-parabolic
- High quality EVA grips (hardness 70)
- Fighter grip
- 7 Original SeaGuide® XR guides

MADCAT GREEN CLOSE COMBAT

Product Code: MCQ015

An already legendary MADCAT rod, the Close Combat just got even better. Specially designed for vertical jigging with a baitfish, this rod is famous for its supreme strength, and it now packs this into a length of just 1.7m making it ideal to fish from a boat or even belly boat. Since the rod is not designed for casting, the guides are as small as we could get away with making them to keep the overall weight down and make the blank super-fast. The whole outfit is superbly light and sensitive, yet powerful enough to set the hook on monster catfish and play them with real strength. Equipped with a double-lock Fuji TVS-TJS reel seat.

- Short design for ease of use in boats
- Sensitive yet powerful blank
- Super-small guides to improve blank performance and reduce weight
- SeaGuide guides
- Double-lock, ergonomic Fuji TVS-TJS reel seat
- Perfectly designed for vertical jigging

MADCAT GREEN SPIN

Product Code: MCQ016

Although this MADCAT rod has been incredibly popular among catfish anglers in Europe for many years now, we somehow found a way to make it even better. Besides a fresh new look, the real stand-out feature is the fact that the two shortest length versions are not parted in the middle of the blank, but just above the grip. This makes the blanks effectively one-piece and even more powerful – a feat some thought wasn't possible! These spinning rods are light enough to cast lures yet powerful enough to properly hook and play record-sized catfish. Equipped with light, quality anti-tangle guides and a double-lock Fuji TVS-TJS reel seat.

- Stylish new cosmetics
- Two shortest rods are split at the handle
- Sensitive yet powerful blank
- SeaGuide guides
- Double-lock, ergonomic Fuji TVS-TJS reel seat
- Lightweight, anti-tangle guides

MADCAT GREEN HEAVY DUTY

Product Code: MCQ018

Heavy duty doesn't only mean that these rods are powerful but also that they can withstand plenty of rough handling, especially because the SeaGuide guides do not have a ceramic inners that could break out if under extreme pressure. These incredibly powerful rods are ideal for anglers who change spot a lot and are suitable for distance fishing, for instance with buoys. When your catfishing trips are rough and ready, you need a rod capable of standing up to the punishment – this is the one. Built with an original Fuji DPS reel seat in size 20.

MADCAT GREEN DELUXE

Product Code: MCQ022

The Deluxe is one of the most famous catfish rods that we make at MADCAT, and with good reason. Its adept at distance fishing with buoys or subfloats and its long and powerful design can tame catfish of any size. The new-look version also features an EVA fighting grip covered in anti-slip shrink tube, which gives it a pleasant feel and makes it easy to clean. The butt cap is king-sized so that it's more comfortable to press into your body during a hard fight with a fish. These rods really do their name justice – they are deluxe in every sense of the word. Equipped with SeaGuide guides and now available in new 3.00m and 3.45m lengths.

MADCAT GREEN PELLET

Product Code: MCQ020

As catfishing evolves, so does MADCAT. The new Green Pellet rod is no longer 3.60m long, but now 3.10m. The reason? Pellet fishing is no longer done carp style – the rods are now mostly placed standing up in a tripod. That way the line is lifted higher out of the water to reduce the risk of the line getting snagged. Another advantage is that the shorter rod length makes playing fish from a boat a lot easier and much more fun. Built with an original Fuji DPS reel seat.

- Stylish new cosmetics
- Sensitive yet powerful blank
- SeaGuide guides
- Shorter design for easier use in tripods and from boats
- Original Fuji DPS reel seat

MADCAT GREEN PELAGIC

Product Code: MCQ044

Pelagic fishing for catfish is fast gaining popularity as an extremely effective way of catching in large, deep waters during the cold winter months, mostly from a belly boat. For that purpose, MADCAT has developed a special rod that has exactly the right length, the right weight, the right action and the right sensitivity – the Green Pelagic. As you would expect, it's built using high-quality components such as an original Fuji trigger reel seat. With this rod, MADCAT has once again proved itself to be at the forefront of pan-European catfish fishing.

Black Series

BLACK CLOSE COMBAT 180

Product Code: MCQ023

The newest member of the legendary MADCAT Close Combat sequence. This upgrade of the Black Series Close Combat 180 offers an ergo dynamic shaped SeaGuide® XSS reel seat, for more sensitivity. The whole rod is lighter in weight and now the black EVA handle part is covered with shrink tube. That gives it an extra smooth feel, makes it non-slip and easy to clean. This Close Combat is ideal for vertical jigging from out of a boat or even belly boat: super sensitive, perfectly balanced and a joy to look at. Powerful enough to set the hook with sufficient force and play monster catfish hard. And when you do... the oversized, EVA Comfort butt cap helps ease the wonderful pain of catfishing!

BLACK HEAVY DUTY

Product Code: MCQ026

This series is called "Heavy Duty" because these rods are meant to withstand some level of abuse. For instance: the SeaGuide® AG guides used are without a damage-sensitive ceramic inlay. Under the motto: what's not there, you can't break or lose! The black EVA handle part is covered with shrink tube, to make it non-slip and easy to clean. Ideal rods for distance fishing with buoys or subfloats in one of Europe's fast running catfish rich rivers.

BLACK PELLET

Product Code: MCQ037

Pellet fishing is hot since people have discovered that it doesn't only work in the Spanish Ebro but also in French and German rivers. So, the fishing evolved the last few years and we had to rethink and reinvent our pellet rod. The result: a rod completely different from the old carp style pellet rod: it's shorter, more heavy duty and has a more sensitive tip. The black EVA handle part is covered with shrink tube, to make it non-slip and easy to clean.

BLACK CAT-STICK

Product Code: MCQ029

When we developed and tested the CAT-STICK we always had one thing in mind: we have to make a catfish rod that can stand the extreme power of monster catfish and also, rough handling by the catfish angler. So with this in mind, we developed a rod with double wrapped guides without a shock ring, a glass blank, rubber grips and a heavy duty aluminum reel seat. Rods built to last, recommended for buoy fishing or float fishing with heavy bait fish.

TECHNICAL DETAILS

- Aluminum reel seat, #22
- Double wrapped SeaGuide® AG guides

BLACK ALLROUND

Product Code: MCQ030

If circumstances dictate that you can only bring one rod to the water, this is your best option: a MADCAT Allround rod, suitable for distance fishing with buoys or subfloats, float fishing from out of a boat or even fishing with pellets. A powerful rod with a very attractive design with camouflage elements. The black EVA handle part is covered with shrink tube for an extra smooth feel (very easy to clean).

BLACK DELUXE

Product Code: MCQ036

Series of rods specially designed for distance fishing with buoys or subfloats. Also suitable for pellet fishing. For every different distance, technique or angler there is a suitable length. Executed with a heavy duty reel seat (for big reels with big spool capacities), heavy duty guides and a handy fighter grip. The black EVA handle part is covered with shrink tube for an extra smooth feel (very easy to clean). Deluxe rods are very popular model among catfish anglers who like to fish in medium to big rivers at great distance, because the strength and length gives the angler, literally, more leverage.

TECHNICAL DETAILS

- DPS-H style reel seat, #22
- 24T carbon blank
- Shrink tube covered handle part

Trade Unit 1

Catfish fishing requires dedication and sometimes long hours on the bank into the night are needed in order to catch that fish of your dreams. When you put in that much effort, you don't want to miss your chance, which is why we have created a series of smart bite alarms that will ensure you never miss a thing. Using the latest smart wireless technology, our range of alarms can be fully customised to your needs with some models like the TOPCAT alarms that can be attached directly to your rod. Not only are our bite alarms lightweight and easy-to-use but they also won't break the bank with price points accessible to all anglers.

TOPCAT ALARM SET

Product Code: MCD004

Stylish, small and light catfish bite alarm set that detects vibration but also indicates a slow bite or a drop back. Nothing escapes a TOPCAT alarm. It is waterproof (IP66 rated) and USB chargeable. Fully charged the batteries will easily last a week. Receiver requires 2 AAA batteries.

- Adjustable volume (from 0 to 6)
- Adjustable sensitivity (4 levels)
- Drop back indication
- Slow bite indication
- Vibration indication (adjustable)
- Night light
- Fully charges in 2.5 hours
- Low battery drain (internal battery lasts up to 240 hours)
- Memory function
- Low battery alert (at 20%)
- Anti-theft alarm
- 100m effective reach
- Receiver responds real time (no delay)
- User friendly navigation through the functions
- Fast switch off (within 2 seconds)

PELLET PASTE

Product Code: MCA009

Get those big cats feeding with our new pellet paste. Easy to mould and not too sticky, it can be applied to any hookbait to make it more enticing. It is perfectly designed for our MADCAT Pellet Paste Rig, which has a special paste coil on the hair. The paste is designed to dissolve slowly (over several hours on still waters and over an hour on rivers), so you get the maximum attraction.

- Easy to mould
- Not too sticky composition
- Perfect for use with the MADCAT Pellet Paste Rig
- Slow dissolving – several hours on still waters, over one hour on rivers
- 350 gram

POP-UP BAIT

Product Code: MCA012

To further boost the effectiveness of the MADCAT Pellet Hook Bait, add one of these bright and luminous MADCAT pop-ups. It stands out like a sore thumb when used on top of a pellet hookbait and will arouse the interest of even the wariest of catfish. A snowman rig like this is also easier for catfish to suck up into their mouths.

- Bright, luminous pink colour
- Best fished as a snowman rig with a pellet hook bait
- Easy for catfish to suck up
- 100 gram

MADCAT BIODEGRADABLE WEIGHT BAG

Product Code: MCT081

Make yourself a greener angler with our biodegradable weigh bags – an eco-friendly alternative to leads. Simply fill the bag with sand, clay or gravel from the place you are fishing, and it will weigh around 1kg, offering the perfect weight for many catfish fishing situations. Once filled, close the bag up and apply a swivel and snap – you can interchange with the MADCAT Safety Lead Clip XL. Despite the fact this bag looks and feels like plastic, it is actually made from corn, and will completely degrade in water within half a year. Please note, this is not designed for casting, but for being dropped from a boat or bait boat.

- Made from corn material
- Degrades in water within half a year
- Weighs around 1kg when full of sand, gravel or clay
- Can be used with MADCAT Safety Lead Clip XL
- Not designed for casting, use a (bait) boat
- 25x10cm
- Twenty pieces per pack

A-STATIC SILENT TEASER

Product Code: MCK005

After the huge success of the MADCAT® Clonk Teasers, it was time for a new version: the A-STATIC Silent Teaser. In heavily pressured waters, the catfish is still attracted by the clonk teaser, but when it approaches the lure, it may get suspicious, because of the ticking beads. What is then needed, to trigger an attack, is the turbulence of an escaping bait fish – without sound! The MADCAT® A-STATIC Silent Teasers are developed to produce as much as possible turbulence, caused by the skirt with a wavy edge and golf ball dimples, on both the body and the skirt. Grooves at the bottom of the skirt, makes that the skirt folds away easily when the teaser is lowered (but spreads firmly when lifted). In other words: it will create as little as possible turbulence when lowered but as much as possible when lifted. The MADCAT® A-STATIC Silent Teasers are so sophisticated that it will fool even the weariest catfish again. A-STATIC, meaning: rubber coated, to minimize the electric field that spooks catfish. Note: the coating can wear off during usage.

A-STATIC PROPELLER TEASER

Product Code: MCK006

The most sophisticated clonk teasers available on the market until now: A-STATIC, silent but still screaming for attention: the MADCAT® A-STATIC Propeller Teasers. The body has no less than 4 wings, making it spin frantically, even at slow speed. Ideal for triggering attacks from aggressive catfish. Recommended for use in less pressured waters or for those moments when the catfish are on a feeding frenzy. Absolutely top of the bill, state of the art clonk teasers. A-STATIC, meaning: rubber coated, to minimize the electric field that spooks catfish. Note: the coating can wear off during usage.

PELAGIC CAT LURE

Product Code: MCK027

Hunting for pelagic catfish just got a whole lot easier with this super-realistic and incredibly detailed soft lure, specially designed for just that purpose. Featuring a lead hidden inside the head so as not to spook weary catfish, this lure drops fast, swims straight as an arrow and hangs horizontally in the strike zone. The 6X super-strong double hook is held in place with a small, embedded magnet hook keeper. Catfish and sometimes zander hit this lure so hard and deep that unhooking can become tricky – this double hook doesn't stick into the lure body, making unhooking faster and more fish-friendly. The lure also features added smelt flavour scent to draw catfish in from further away.

- Hangs perfectly horizontal
- 6X strong double hook

RTF SOFT LURES

The MADCAT® RTF (Ready to Fish) soft lures have exactly the right size and action for every size of catfish. Equipped with an ultra-sharp, 6X strong, size 2/0 quality treble. The MADCAT® Golf Ball Screw-in Jighead makes it very easy to replace the shad after it has been chewed up by a catfish. No need to manually assemble anything anymore. It doesn't get any easier?! Available in three popular weights and three popular colors. Ready to fish, ready to catch! (supplied in a heavy-duty carton display of 16 pieces).

RTF SOFT LURES

- Ready to Fish
- Available in paddle and curl tail
- Three sizes: 20, 40 and 60 gram
- Three attractive colors
- One 6X strong, size 2/0 treble
- Golf Ball Screw-in Jighead

A-STATIC OCTOPUSES

Product Code: MCK020

Octopuses for making a simple clonk teasers. Just stick a round or egg-shaped lead in the head of the octopussy. Then cut a little bit of the tip off, to allow a line to be pushed through, and... ready! (Note: covering the lead helps to minimize the electric field that spooks catfish.) Length: 15cm. Pack of 3 pieces.

CAT CABLE

Product Code: MCT005

The thickest, strongest and most reliable hoolink material in our MADCAT® range, maybe also on the market. Woven out of sixteen single HMPE strains, to get the maximum strength in combination with softness for easy and secure knots. To conceal the hooklink as best as possible and to improve abrasion resistance it has a toughblack coating.

PELLET FISHING

Pellet fishing has always been a hugely effective way to catch big catfish, but until recently it was a common misconception that it's a tactic that only works on still or very slow running water, with heavy pre-baiting, in Spain. However, a revolution has been happening on the rivers of France and Germany as catfish anglers who have

experimented with this technique have enjoyed incredible results – big catfish love pellets. With that in mind, MADCAT has a complete range of everything you need to try this cheap, easy and effective way to catch big catfish for yourself. You don't need to head to the River Ebro in Spain to have monster catfish success!

PELLET PASTE RIG

Product Code: MCT069

A rig specifically designed for use with MADCAT Pellet Paste. It features a cage on the hair, meaning you get slow releasing attraction right next to your hook. You should check the rig regularly to make sure the paste is still intact, but you will be rewarded with more bites. Tied with MADCAT Skin Line.

- Special paste cage
- Tied with MADCAT Skin Line
- High quality components
- A-STATIC hook

STANDARD PELLET RIG

Product Code: MCT064

For those anglers who believe that 'the simpler the rig, the less can go wrong', we have developed a very simple, but hugely reliable standard pellet rig. Featuring a long hair that can take three pellets, this rig doesn't even require a stop to hold them in place. It can also be used to hold just two pellets, simply by wrapping the remaining hair loop over the last pellet.

- Easy to use design
- Simple hair loop for two or three pellets
- High quality components
- A-STATIC hook

QUICK CHANGE PELLET RIG

Product Code: MCT065

Very popular amongst French catfish anglers, who like to fish with a critically balanced snowman bait presentation and already prepared these at home. For that purpose, this rig is supplied with three, 73mm long hairs that can easily be clipped in the little snap on the hook. Tied with MADCAT Skin Line.

- A snap on the hook allows for quick hair loop change
- Three 73mm hairs supplied
- Tied with MADCAT Skin Line
- High quality components
- A-STATIC hook

COMBI PELLET RIG

Product Code: MCT067

This rig uses a combination of both monofilament and braided line in one rig, giving you the very best of both worlds. The weight, stiffness and elasticity of mono, work in tandem with the smoothness and suppleness of braid. These rigs are for catfish anglers who believe that attention to detail makes a big difference.

- Uses both mono and braid
- High quality components
- Best of both worlds design
- Excellent bait presentation
- A-STATIC hook

CAMO SKIN LINE

Product Code: MCT060

Skin line is our high quality HMPE hook link material with a discreet brown camouflage coating. By using a small plier, you can peel the skin off of the line to create a stripped, supple end section that allows for free movement on your bait, while the section with skin still intact stays stiff to prevent tangles. The whole set-up makes it easier for catfish to engulf your bait and feel less resistance.

- Removable skin to create supple end sections

PELLET HOOK LINK 16X

Product Code: MCT061

Special catfish hook link, in a concealing brown color. Made out of 16 HMPE yarns, to give it its super supple and smooth properties. After a catfish sucked the bait up and moves on, the line will gently slide over its teeth unnoticed, until the hook grabs hold.

- 16-strand HMPE catfish hook link
- Super supple and smooth
- Discreet brown colour
- 20m per spool

MADCAT PASTE TEASERS

Product Code: MCT096

This A-Static clonk teaser has been specially designed for use with pellet paste and worms or leeches. The combination of smell, taste and sound that this teaser offers makes for many hard bites – make sure you hold on to your rod tightly. In order to dispel any suspicion in the fish, it is important to completely hide the lead and spiral inside the paste.

- A-Static 6X strong treble hook
- 1.0mm 295lbs 8-braid line
- 310lbs crane swivel

PELLET NEEDLE

Product Code: MCT062

Our jumbo pellet needle is specially designed for catfish pellets – its extra-long point can hold up to three at one time. Made from stainless steel, the needle also features a line and bait-friendly in-line barb. The ergonomic handle ensures safe pushing and pulling, and the bright colour means you will not lose it easily if you drop it. Total length: 15cm.

GOLF BALL
PRINCIPLE

GOLF BALL JIG SYSTEM ANTI SNAG

Product Code: MCT076

Jig system kits for dead baits with interchangeable Golf Ball lead heads. With golf dimples (to reduce drag). The big advantage is that the lead head can be changed very easily. What weight should be applied depends on the size of the bait fish, the depth of the water or the current. Another big advantage is the angle at which the bait fish will be when the lead is placed on the bottom: at a feeding angle. That results in more takes. Plus it greatly reduces the risk of getting snagged to the bottom. Two kits available: one with an 80 and 120 gram and one with a 140 and 180 gram lead head.

GOLF BALL SNAP-ON VERTIBALL RIG

Product Code: MCT020

Vertical jig system with a clip-on lead ball with golf ball dimples (to reduce drag). All parts (swivel, split ring, solid ring, braid, single hook and treble) are heavy duty. Ready to use. Which rig and/or weight you should choose depends on the current, depth of the water and/or the size of the baitfish. Loose balls, in various weights, are available.

MADCAT GOLF BALL JIG HEADS

Product Code: MCT097

In testing and development, these have been referred to as the best catfish jig heads available – once you try them, it will be easy to see why. Featuring golf ball-style dimples on the head to reduce drag, the hooks are made with super high-quality 4X strong wire and ultra-sharp points – no catfish will be able to bend them open.

- Golf ball dimples to reduce drag
- Ultra-sharp hook points
- 4X strong wire

GOLF BALL SCREW-IN JIGHEAD

Product Code: MCT023

Jighead with golf dimples (to reduce drag). Simply screw a soft lure on the jighead and attach a stinger treble. The eye of the jighead is, on purpose, made a bit oversized, to make it easy to attach the mainline and the stringer. The big advantage of this particular type of jighead, over conventional jigheads with a single hook: a catfish can't use the hook shank as a crowbar anymore. You will simply loose less fish. Once you start using screw-in jigheads you will wonder how you ever managed without them!

MADCAT BUOY ROPE

Product Code: MCT082

Anchor rope for catfish buoys (15 meter). Stick the snap through the eye of the buoy, attach it to the anchor stone and drop the stone on the desired spot. The floating body will unroll the line automatically, until the anchor hits the bottom. To fixate the line, guide the line through the slot and wrap it several times around the hook. The big advantage of the MADCAT Buoy Rope? That you can store the line in an orderly fashion.

MADCAT BELLY BOAT PRO-MOTOR 185

Product Code: MCC005

A new and improved generation of the popular MADCAT belly boat – ready for action, just like you are. This boat has been designed with functionality and safety to the fore and is fully Float Plus-ready, but can also easily have a trolling motor placed in front of the bow. The bumper features a gap specifically to help you attach a motor mount. The new design of this belly boat is 5cm longer than the previous version to improve buoyancy and balance while the drop stitch seat is no less than 2cm higher than normal and features anti-slip EVA padding to further increase comfort. The boat has been designed with three separate air chambers – should the worst happen and one of them get punctured, it can still float with two remaining. All supplied bags are fully waterproof and stable while the MADCAT Pro Motor also has an extra waterproof bag in the front of the tip. Customisation is key with this belly boat – all the tube ends are empty so you can easily equip your chosen desired accessories such as fish finders or rod supports with glue-on pads. Supplied with an easy-to-use hand pump and pressure clock, so you can always be sure it is inflated to the optimum pressure.

- Float Plus-ready
- Trolling engine mount friendly
- Extra-long for increased stability
- Glue-on pad friendly
- Inflatable bottom
- Extra-high drop stitch seat
- Comfortable EVA seat padding
- Four sturdy, super-stable waterproof bags
- Three air chambers
- Non-slip seat straps
- Extra-long drag pads
- Lightweight: 14.5kg (including all bags)
- Length: 185cm
- Hand pump with pressure clock included

SINGLE ROD HOLDALL
Product Code: MCL004

Rod holdalls for a single catfish rod. Extra wide at the top, leaving space for a big catfish float. Made of 420D, "diamond" polyester (100%).

BAIT STATION FLOATING

Product Code: MCN001

Floating keepnet for baitfish. Completely made out of rubber mesh (100% soft polyester), so "no-stink" and the baitfish won't get stuck in it (as, for instance, small carp tend to do). The lid on the top can be closed with a zipper. We've included a ring at the bottom for attaching weight in order to prevent the net from collapsing. A very simple but extremely useful product.

The MADCAT clothing collection is designed to protect you while fishing in the tough conditions that often come hand-in-hand with this type of fishing, but also to help you look good while doing it. Whether you are looking for practical, protective clothing like gloves, waterproof suits or life vests, or perhaps some style pieces like caps, t-shirts and hoodies – there is plenty to choose from. Catfish anglers are a special group, so why not be proud of your passion and show it to the world with our smart apparel options?
