MADCAT

Lurking in the murky depths of Europe's rivers, ponds and lakes lies one of the continent's biggest predators. They can be more than two metres in length and weigh more than 100kg and have a diet that includes crustaceans, fish of all sizes and even pigeons and ducks – it's no wonder the catfish is considered one of the apex freshwater predators of the continent. The catfish represents one of the ultimate challenges for anglers and catching them has been steadily growing in popularity over the last decade. But it is no job for mere regular fishing tackle – you need specialist equipment to fight these brutal leviathans – and that's where MADCAT comes in.

Some years ago, the team at DAM identified a growing number of anglers attempting to catch monster catfish around Europe and they decided that some proper tackle for the job was needed. The MADCAT brand was launched soon after and has since become synonymous with some of the most famous and impressive catfish catches all around Europe. If you want to catch the catfish of your dreams, MADCAT can help you achieve it. We have created an all-encompassing range offering rods, lures, lines, terminal tackle, bite indicators, luggage, bivvies, bedchairs, clothing and a whole host of other accessories, all designed to withstand the rough and ready world of catfish fishing. Whether you are fishing from the bank or from a boat or other watercraft, MADCAT has specialised kit that makes it possible to stir up the giants of the deep and to get them on your unhooking mat.

Because MADCAT was there right at the beginning of the modern European catfish fishing trend, the brand has helped to shape and guide the phenomenon by creating products that offer true solutions to the problems that catfish anglers encounter. We have sourced input from some of the most creative and determined anglers from in this field and our combined efforts have seen MADCAT achieve things that a catfish-specific brand could only dream of – such as winning international awards at European fishing trade fair EFTTEX.

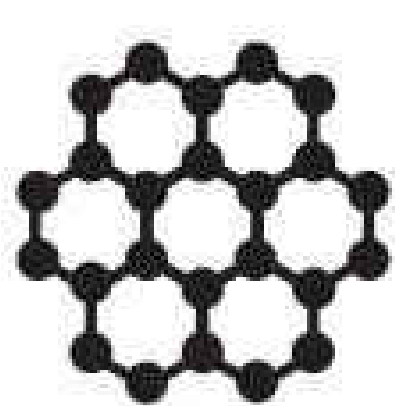

MADCAT continues to innovate and continues to push the boundaries – our pioneering attitude rubs off on every angler who uses our products. Catfish fishing is not for the faint hearted – it is for the brave, for the ambitious, for those who would choose MADCAT.

MADCAT

Taming a monster catfish is no job for just any ordinary fishing rod, you need specialist equipment that can handle the brutality of the fight, and MADCAT has you covered. Our legendary Black Series of catfish fishing rods has become iconic in the sector thanks to super-powerful blanks, high quality components and models designed for niche styles of catfish fishing, such as from a bellyboat. This range is supported by the hugely innovative Green Series, which has recently been given a full makeover, with not only improved cosmetics but lighter and faster blanks, premium components from Fuji and SeaGuide and smart features like king-size butt caps for comfort when playing big fish. Whatever your style of catching big catfish – be it with pellets, pelagic, or even with a baitcaster – we have a rod specifically designed for your purpose.

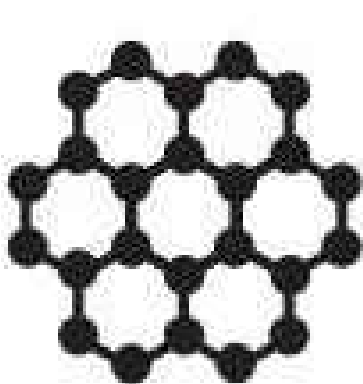

Nano150 T1100G

A technology that uses Torayca T1100G nanoalloy carbon to lower the overall weight of the blank and increase its strength, breaking resistance, casting ability and lure control.

Nano200 T1100G

A technology similar to Nano11K150, that uses Torayca T1100G nanoalloy carbon to even further lower the overall weight of the blank and increase its strength, breaking resistance, casting ability and lure control to a very high level.

The special, coil-shaped inner structure of the blank allows the line to slide through the rod smoother, enabling a reel drag to respond better and, also, prolonging the life expectancy of the line.

Constructed using only high-grade materials, the deep pressed reel seat offers exceptional performance and stylish low-key cosmetics. It features spring steel collars and easy-grip screw fixing

Rods built with DLS feature a reel seat nut that is screwed down from the front towards the reel.

Rods with TRS are equipped with a trigger reel seat, making them suitable for baitcast reels.

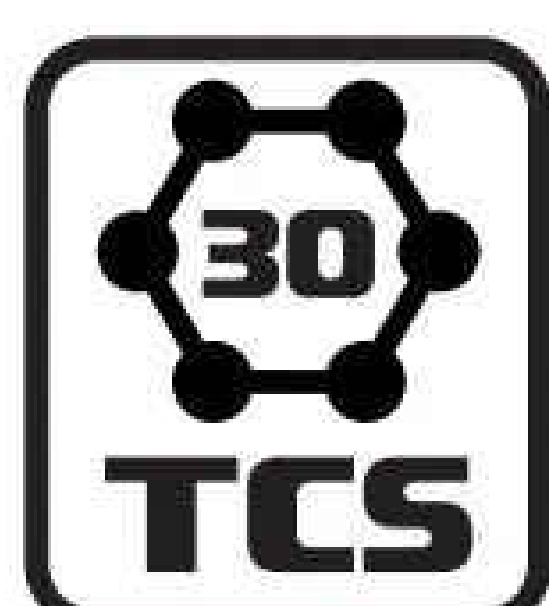

This unique reel seat design follows the shape of the human hand, making it feel more comfortable to hold.

duragrip 70°

The rod handle is made of EVA material in hardness 70, which offers superior and comfortable grip in all conditions, even with wet hands.

24T Toray carbon blanks are powerful yet resilient enough to be able to endure huge bends. They perform flawlessly under any circumstance and tolerate extreme curves. Rods with TCS24 are ideal for both new anglers, because they easily forgive mishandling, and also experienced anglers, who really need to push a rod to its breaking limits.

Combining a faster response with a resilience to be able to endure huge bends, 30T Toray carbon blanks give a rod power, speed and high-curve ability. Rods with TCS30 are perfect for anglers that seek technical performance on a blank that can withstand hard use.

duragrip stc

Dura Grip STC stands for shrink tube coated EVA, which increases the durability of the handle as well as the overall grip.

Rods with DLRS are equipped with a double-locking hood nut to ensure the reel stays securely connected with the rod.

When you think of a catfish rod, you might imagine something heavy, thick, and hard that perhaps has more in common with a pool cue than a fishing rod. But those days are quickly disappearing into the distant past – MADCAT has been at the forefront of using advanced materials and production techniques that have helped forge a new revolution of catfish rods that are thinner, lighter and more sensitive, without compromising on strength.

The latest culmination of those efforts by MADCAT and its team of expert pro staffers around the world is the new White Series. With an already formidable reputation among European catfish anglers, the White Series is now faster, lighter, stronger, and slimmer – as well as featuring a stylish new look. Featuring 30TC nano-carbon blanks and original SeaGuide® components, this range looks set to take catfish fishing onto the next level.

WHITE DELUXE

This is the third generation of MADCAT White Deluxe rods. This new evolution brings rods that are perfect for fishing the mighty rivers of Europe, such as the Rhine, the Rhone or the Po. They are long, they are semi-parabolic and they are practically unbreakable because of the nano-carbon blank material. If you want to have enough power to control a 2.5m catfish in heavy current, this is the tool you need. Fully kitted out with top-class SeaGuide components including the guides and the reel seat, this rod oozes quality from tip to butt.

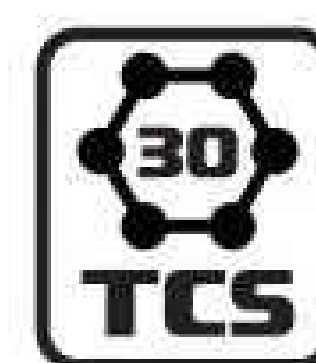

- 30TC nano-carbon blank
- Semi-parabolic
- EVA fighter grip with anti-slip EVA grip
- Original SeaGuide XR guides
- Original SeaGuide reel seat

WHITE CLOSE COMBAT

Making a rod lighter and more sensitive is a way of getting a closer connection to the fish, which is exactly what we wanted to do with the Close Combat. Lighter and more sensitive than ever before, this rod is also slimmer giving it a wonderful action and ensuring you feel every surge in the fight. The fighter grip is covered by X-wrap shrink tube, which improves overall grip and is easier to clean, while the SeaGuide reel seat features a dual locking nut system to keep your reel securely in place. Ideal for vertical jigging.

WHITE SPIN

We managed to make the new MADCAT White Spin rods lighter, more sensitive, and even more pleasing on the eye. These rods are practically unbreakable thanks to the nano-carbon blank material and feature X-wrap shrink tube on the hard EVA fighter grip, which improves overall grip and is easier to clean. The two shortest members of this impressive rod family feature the connection just above the fighter grip to maintain their overall blank strength. All MADCAT White Spin rods have an ergo dynamic SeaGuide reel seat with a dual locking nut system, to secure your reel like never before.

WHITE BELLY CAT

MADCAT was the first to introduce a catfish rod specifically designed for belly boat fishing, and we continue to stay one step ahead of the rest with this next generation of White Belly Cat rods. Not only lighter and more sensitive than its predecessors, it also has even more power reserves to help you stay in control of the fight. These characteristics make it perfect for belly boat fishing, and so does the extra-short handle and the special ring for a safety coil lanyard. The foregrip is covered with X-wrap shrink tube for enhanced grip and easier cleaning, while the SeaGuide reel seat has a double locking nut system to securely hold your reel.

- 30TC nano-carbon blank

WHITE BAITCAST

For the lucky few who have discovered the advantages and the joy of fishing with a baitcast rod and reel for catfish, we have developed this impressive model that's heavy-duty enough to catch monster catfish yet still soft and light enough for accurate casting. The fighter grip is covered by X-wrap shrink tube, which offers better overall grip and is easier to clean, while the SeaGuide reel seat has a dual locking nut system to help keep your baitcasting reel secured like never before.

- 30TC nano-carbon blank
- Foregrip with anti-slip shrink tube

WHITE PELAGIC

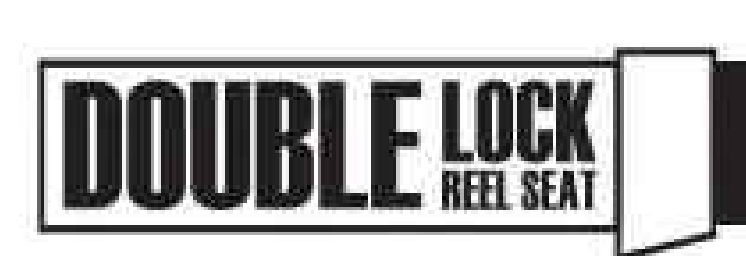

Pelagic fishing for catfish is quickly becoming a very popular method – but it's a technique that requires specific tools for the job. That's where the MADCAT White Pelagic 185 comes in. This lightweight yet powerful rod has a sensitive tip section that allows catfish to easily inhale a pelagic lure before it realizes it's too late. The action on this rod is such that you'll enjoy memorable battles with smaller catfish and even other species like zander too. The fighter grip features X-wrap shrink tube that improves overall grip and is easier to clean while a SeaGuide reel seat with dual locking nut system will secure your baitcasting reel like never before.

- 30TC nano-carbon blank
- Foregrip with anti-slip shrink tube
- SeaGuide guides (flanged tip guide)
- Ergo dynamic SeaGuide XCSS reel seat

WHITE KAYAK CAT

Once again, MADCAT has proved its pedigree as the frontrunner in catfish rod innovation. After being the first brand to release rods specific for clonk teaser, belly boat, and pelagic fishing, we're now one of the first brands to offer a rod specific for catfish fishing from a kayak. The MADCAT White Kayak 165 is extra short to help with handling, features a slim and lightweight blank, and is designed for comfortable fishing thanks to not being overly stiff. The fighter grip is covered by X-wrap shrink tube, which offers better overall grip and is easier to clean, while the SeaGuide® reel seat has a dual locking nut system to help keep your baitcasting reel secured like never before.

- 30TC nano-carbon blank
- Foregrip with anti-slip shrink tube

WHITE CLONK TEASER

The key features that make these rods perfect for fishing with clonk teasers are the fluorescent green tips and their impressive sensitivity. The extra-soft tip registers even the most subtle of bites, so you won't miss a thing. They are also lighter in weight and more pleasing on the eye than their predecessors and feature hard EVA fighter grips that are covered by X-wrap shrink tube for better overall grip. All White Clonk Teaser rods have an ergo dynamic SeaGuide reel seat with a dual locking nut system to secure your reel like never before.

- 30TC nano-carbon blank
- Extra sensitive, highly visible tip
- Fighter grip with anti-slip shrink tube

WHITE VERTICAL

The MADCAT White Vertical rod is famous for its special SeaGuide guides, so with this new version we kept that the same but made the rod shorter and 40 per cent lighter to improve its handling, playing power, and comfort. Thanks to the 30TC nano-carbon used in the blank, we also managed to make it slimmer, stiffer, and even more powerful too. The fighter grip is covered by X-wrap shrink tube, which offers better overall grip and is easier to clean, while the SeaGuide reel seat has a dual locking nut system to help keep your reel secured like never before. Ideal for vertical jigging.

WHITE PELLET

More and more people are discovering that you can catch catfish on pellets from the bank. You don't even have to have a boat. It's a technique that shows great similarities with carp fishing, except for one thing: when a catfish bites, you hardly ever get a full run. Most of the time, the fish announces itself by twitching the rod tip. Therefore, pellet anglers have developed a strong preference for rods with sensitive tips. And that is exactly what this sublime rod offers: casting power, fighting power but with a very sensitive tip – ideal for pellet fishing. The fighter grip is covered by X-wrap shrink tube, for a better grip and easier cleaning.

- 30TC nano-carbon blank
- Foregrip with anti-slip shrink tube
- Original SeaGuide guides
- Original SeaGuide DPS20 reel seat
- Sensitive tip

WHITE LIGHT SPIN 210

This rod is specially designed for small waters with more modest-sized catfish. However, if you get lucky and hook into something bigger than expected, it has the fighting capability to help you land it. The connection in the rod is just above the fighter grip, which helps to maintain the overall strength and playing power of the blank. The fighter grip is covered by X-wrap shrink tube, which offers better overall grip and is easier to clean, while the SeaGuide reel seat has a dual locking nut system to help keep your baitcasting reel secured like never before.

GREEN BELLY CAT

At just 1.75m long and with a short handle, this very capable rod has been designed specifically to give you easy maneuverability while belly boat fishing. It also features a metal ring so you can attach it to yourself via a lanyard, so you can't lose the rod if it accidentally falls overboard. The blank is sensitive, powerful and perfectly balanced and the rod is equipped with high-quality components including SeaGuide guides and a double-lock, ergonomic Fuji TVS-TJS reel seat.

- Stylish new cosmetics

GREEN CLOSE COMBAT

An already legendary MADCAT rod, the Close Combat just got even better. Specially designed for vertical jigging with a baitfish, this rod is famous for its supreme strength, and it now packs this into a length of just 1.7m making it ideal to fish from a boat or even belly boat. Since the rod is not designed for casting, the guides are as small as we could get away with making them to keep the overall weight down and make the blank super-fast. The whole outfit is superbly light and sensitive, yet powerful enough to set the hook on monster catfish and play them with real strength. Equipped with a double-lock Fuji TVS-TJS reel seat.

- Short design for ease of use in boats
- Sensitive yet powerful blank
- Super-small guides to improve blank performance and reduce weight
- Double-lock, ergonomic Fuji TVS-TJS reel seat
- Perfectly designed for vertical jigging

GREEN SPIN

Although this MADCAT rod has been incredibly popular among catfish anglers in Europe for many years now, we somehow found a way to make it even better. Besides a fresh new look, the real stand-out feature is the fact that the two shortest length versions are not parted in the middle of the blank, but just above the grip. This makes the blanks effectively one-piece and even more powerful – a feat some thought wasn't possible! These spinning rods are light enough to cast lures yet powerful enough to properly hook and play record-sized catfish. Equipped with light, quality anti-tangle guides and a double-lock Fuji TVS-TJS reel seat.

- Stylish new cosmetics
- Two shortest rods are split at the handle
- Sensitive yet powerful blank
- Double-lock, ergonomic Fuji TVS-TJS reel seat
- Lightweight, anti-tangle guides

GREEN HEAVY DUTY

Heavy duty doesn't only mean that these rods are powerful but also that they can withstand plenty of rough handling, especially because the SeaGuide guides do not have a ceramic inners that could break out if under extreme pressure. These incredibly powerful rods are ideal for anglers who change spot a lot and are suitable for distance fishing, for instance with buoys. When your catfishing trips are rough and ready, you need a rod capable of standing up to the punishment – this is the one. Built with an original Fuji DPS reel seat in size 20.

- Stylish new cosmetics

GREEN INLINE

One for the clonkers – this rod features no guides meaning that the line can never get caught up in them or tangled. The line actually runs through the inside of the blank making it a very popular choice for clonking fans. It features an EVA fighting grip with smooth feeling and anti-slip layer of shrink tube over it, making it effective to use and easy to clean. Built with an original Fuji DPS reel seat in size 22. Supplied with a threader to make it easy to pull line through the middle of the blank.

GREEN DELUXE

The Deluxe is one of the most famous catfish rods that we make at MADCAT, and with good reason. Its adept at distance fishing with buoys or subfloats and its long and powerful design can tame catfish of any size. The new-look version also features an EVA fighting grip covered in anti-slip shrink tube, which gives it a pleasant feel and makes it easy to clean. The butt cap is king-sized so that it's more comfortable to press into your body during a hard fight with a fish. These rods really do their name justice – they are deluxe in every sense of the word. Equipped with SeaGuide guides and now available in new 3.00m and 3.45m length.

Sales Unit 1

GREEN PELLET

As catfishing evolves, so does MADCAT. The new Green Pellet rod is no longer 3.60m long, but now 3.10m. The reason? Pellet fishing is no longer done carp style – the rods are now mostly placed standing up in a tripod. That way the line is lifted higher out of the water to reduce the risk of the line getting snagged. Another advantage is that the shorter rod length makes playing fish from a boat a lot easier and much more fun. Built with an original Fuji DPS reel seat.

- Stylish new cosmetics
- Sensitive yet powerful blank
- Shorter design for easier use in tripods and from boats
- Original Fuji DPS reel seat

GREEN PELAGIC

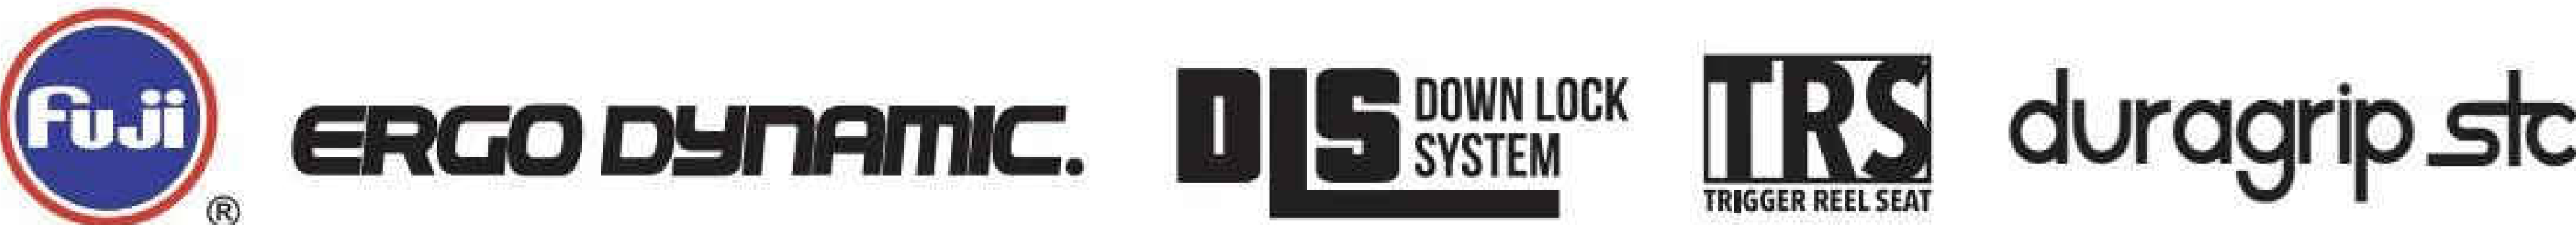

Pelagic fishing for catfish is fast gaining popularity as an extremely effective way of catching in large, deep waters during the cold winter months, mostly from a belly boat. For that purpose, MADCAT has developed a special rod that has exactly the right length, the right weight, the right action and the right sensitivity – the Green Pelagic. As you would expect, it's built using high-quality components such as an original Fuji trigger reel seat. With this rod, MADCAT has once again proved itself to be at the forefront of pan-European catfish fishing.

- Stylish new cosmetics
- Sensitive yet powerful blank
- Original Fuji trigger reel seat
- Perfect blanks for pelagic fishing

GREEN LIGHT SPIN

Not every catfish water holds monsters – many small canals or ponds are home to smaller, but no less fun-to-catch catfish. There is still great sport to be had on these kinds of waters with lures and lighter tackle, which exactly why we developed this light catfish spinning rod. It brings the fun back into fishing when you can only get to waters with smaller-sizes predators. Equipped with anti-tangle guides and a double-lock ergonomic Fuji TVS-TJS reel seat.

- Stylish new cosmetics
- Sensitive yet powerful blank
- Lighter design for fishing with lures

GREEN BAITCAST

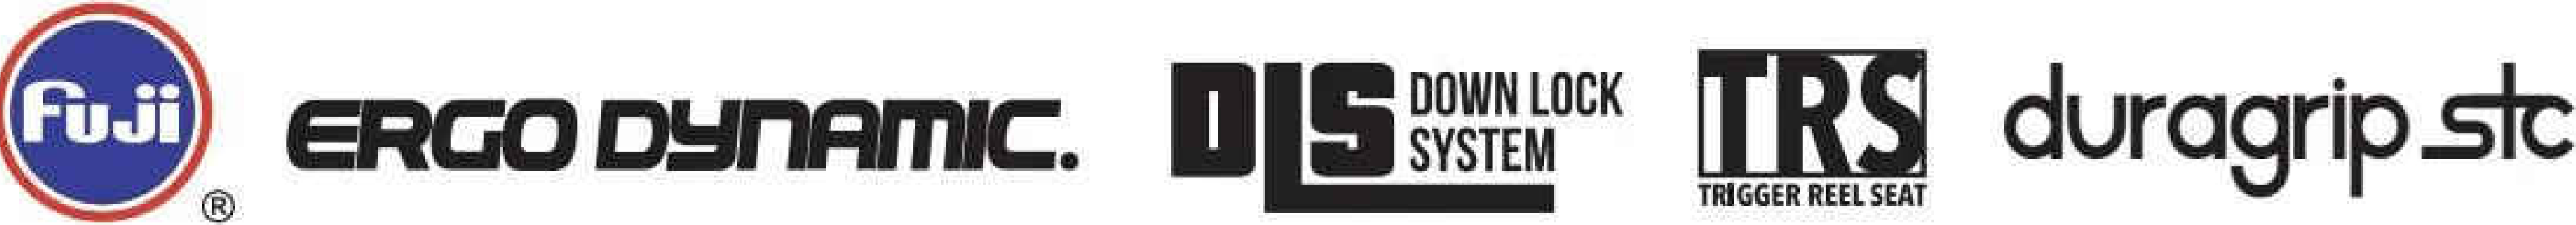

Often seen as the missing piece of the jigsaw for the MADCAT Black and Green rod series – a baitcasting rod has now been added to the range and it is truly phenomenal. It has the perfect action for casting yet is still fast and powerful enough to quickly and securely set the hooks on jumbo-sized catfish. If you've never tried fishing for catfish with a baitcaster, you're in for a treat. Built with an original Fuji trigger reel seat, this rod even has a small EVA fighting grip, covered in smooth, anti-slip, x-wrap shrink tube.

- Stylish new cosmetics
- Original Fuji trigger reel seat
- EVA fighting grip with anti-slip shrink tube
- Sensitive yet powerful blank
- Designed for baitcasting reels

Black Series

BLACK CLOSE COMBAT 180

The newest member of the legendary MADCAT Close Combat sequence. This upgrade of the Black Series Close Combat 180 offers an ergo dynamic shaped SeaGuide® XSS reel seat, for more sensitivity. The whole rod is lighter in weight and now the black EVA handle part is covered with shrink tube. That gives it an extra smooth feel, makes it non-slip and easy to clean. This Close Combat is ideal for vertical jigging from out of a boat or even belly boat: super sensitive, perfectly balanced and a joy to look at. Powerful enough to set the hook with sufficient force and play monster catfish hard. And when you do... the oversized, EVA Comfort butt cap helps ease the wonderful pain of catfishing!

- SeaGuide® XSS reel seat
- 24T carbon blank
- Shrink tube covered handle part
- Oversized EVA Comfort butt cap

BLACK INLINE 210

Inline rods have always been popular among clonking fans and, after the introduction of this latest MADCAT Black Series Inline 210 rod, may even become more popular than ever. It's a piece of art! The black EVA handle part is covered with shrink tube, to make it non-slip and easy to clean. The absence of guides reduces the chance of the line getting tangled around them to zero.

- 24T carbon blank
- Shrink tube covered handle part
- Supplied with a stainless steel threader

BLACK SPIN

Especially in case of spinning rods the right weight, balanced, sensitivity and power are of vital importance, because spinning for catfish requires constant casting and retrieving. It's simply hard work! We believe we managed to find the right combination of all these requirements. The light, ergo dynamic shaped SeaGuide® XSS reel seat and shrink tube covered handle part give the MADCAT Black Series Spin rods an extra comfortable feel.

BLACK HEAVY DUTY

This series is called “Heavy Duty” because these rods are meant to withstand some level of abuse. For instance: the SeaGuide® AG guides used are without a damage-sensitive ceramic inlay. Under the motto: what’s not there, you can’t break or lose! The black EVA handle part is covered with shrink tube, to make it non-slip and easy to clean. Ideal rods for distance fishing with buoys or subfloats in one of Europe’s fast running catfish rich rivers.

- 24T carbon blank
- SeaGuide® AG guides
- Shrink tube covered handle part

BLACK PELLET

Pellet fishing is hot since people have discovered that it doesn’t only work in the Spanish Ebro but also in French and German rivers. So, the fishing evolved the last few years and we had to rethink and reinvent our pellet rod. The result: a rod completely different from the old carp style pellet rod: it’s shorter, more heavy duty and has a more sensitive tip. The black EVA handle part is covered with shrink tube, to make it non-slip and easy to clean.

- 24T carbon blank

BLACK CAT-STICK

When we developed and tested the CAT-STICK we always had one thing in mind: we have to make a catfish rod that can stand the extreme power of monster catfish and also, rough handling by the catfish angler. So with this in mind, we developed a rod with double wrapped guides without a shock ring, a glass blank, rubber grips and a heavy duty aluminum reel seat. Rods built to last, recommended for buoy fishing or float fishing with heavy bait fish.

- Aluminum reel seat, #22
- Double wrapped SeaGuide® AG guides

REEL SEAT

BLACK DELUXE

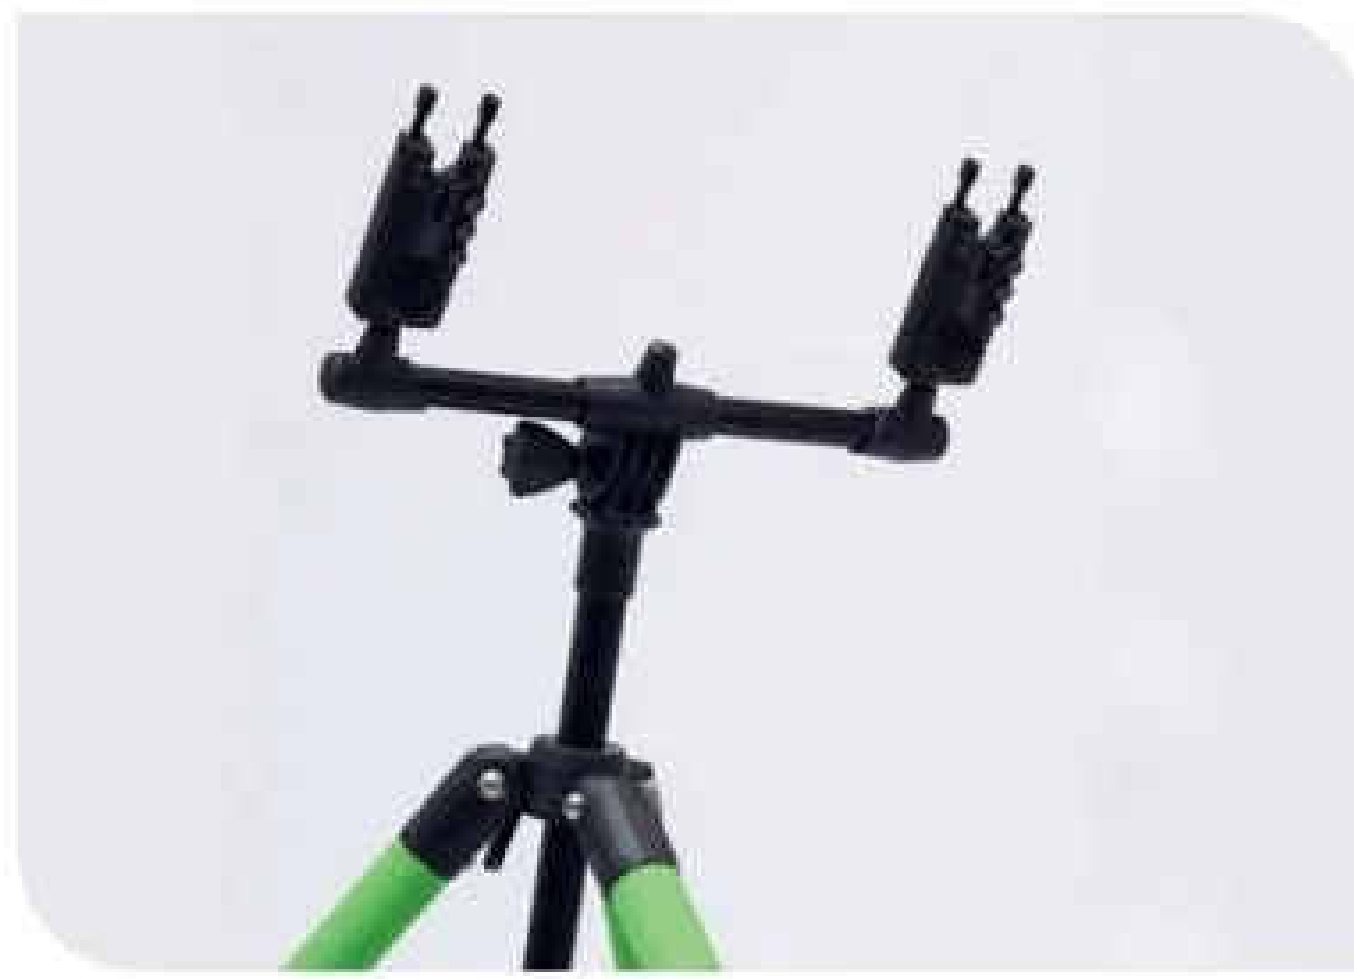

Series of rods specially designed for distance fishing with buoys or subfloats. Also suitable for pellet fishing. For every different distance, technique or angler there is a suitable length. Executed with a heavy duty reel seat (for big reels with big spool capacities), heavy duty guides and a handy fighter grip. The black EVA handle part is covered with shrink tube for an extra smooth feel (very easy to clean). Deluxe rods are very popular model among catfish anglers who like to fish in medium to big rivers at great distance, because the strength and length gives the angler, literally, more leverage.

- DPS-H style reel seat, #22
- 24T carbon blank
- Shrink tube covered handle part

HEAVY DUTY TRI POD

This heavy-duty telescopic tripod offers a super-stable base for two rods, making it ideal for pellet fishing. The bottom buzzer bar features two deep cups, while the top buzzer bar has two king sized, super-solid V-rests, which can be screwed off and replaced with bite alarms if that better suits the situation. The whole unit weighs only 2.7kg thanks to a lightweight aluminium construction.

- Height: 98-174cm
- Transport length: 110cm
- Weight: 2.7kg

Sales Unit 1

Catfish fishing requires dedication and sometimes long hours on the bank into the night are needed in order to catch that fish of your dreams. When you put in that much effort, you don't want to miss your chance, which is why we have created a series of smart bite alarms that will ensure you never miss a thing. Using the latest smart wireless technology, our range of alarms can be fully customised to your needs with some models like the TOPCAT alarms that can be attached directly to your rod. Not only are our bite alarms lightweight and easy-to-use but they also won't break the bank with price points accessible to all anglers.

TOPCAT ALARM SET

Stylish, small and light catfish bite alarm set that detects vibration but also indicates a slow bite or a drop back. Nothing escapes a TOPCAT alarm. It is waterproof (IP66 rated) and USB chargeable. Fully charged the batteries will easily last a week. Receiver requires 2 AAA batteries.

- Adjustable volume (from 0 to 6)
- Adjustable sensitivity (4 levels)
- Drop back indication
- Slow bite indication
- Vibration indication (adjustable)
- Night light
- Fully charges in 2.5 hours
- Low battery drain (internal battery lasts up to 240 hours)
- Memory function
- Low battery alert (at 20%)
- Anti-theft alarm
- 100m effective reach
- Receiver responds real time (no delay)
- User friendly navigation through the functions
- Fast switch off (within 2 seconds)

SMART ALARM MCL SET

Catfish alarms that were made to impress, not only with their fresh and modern design but also with exceptional functionality, performance, and reliability. These alarms not only detect vibration, but they also have a drop back bite indication system. They feature multi-colour LEDs, are completely weatherproof, and have a reach of approximately 100m thanks to the FM modulation, which is less affected by obstacles than traditional AM bite alarms. Designed to be incredibly user friendly with a large V dial knob for volume control and an S knob for sensitivity control, you will never miss a catfish bite again.

- Modern design
- Vibration detection
- Drop back bite indication
- Four sensitivity settings
- Five volume settings
- 100m reach (FM)
- Both the alarms and the receiver require two 1.5V AAA batteries (not included)
- Weatherproof (IP56)
- CE approved
- Supplied with hard protective case

POP-UP

To further boost the effectiveness of the MADCAT Pellet Hook Bait, add one of these bright and luminous MADCAT pop-ups. It stands out like a sore thumb when used on top of a pellet hookbait and will arouse the interest of even the wariest of catfish. A snowman rig like this is also easier for catfish to suck up into their mouths.

- Bright, luminous pink colour
- Best fished as a snowman rig with a pellet hook bait
- Easy for catfish to suck up
- 100 gram

BIODEGRADABLE WEIGHT BAG

Make yourself a greener angler with our biodegradable weigh bags – an eco-friendly alternative to leads. Simply fill the bag with sand, clay or gravel from the place you are fishing, and it will weigh around 1kg, offering the perfect weight for many catfish fishing situations. Once filled, close the bag up and apply a swivel and snap – you can interchange with the MADCAT Safety Lead Clip XL. Despite the fact this bag looks and feels like plastic, it is actually made from corn, and will completely degrade in water within half a year. Please note, this is not designed for casting, but for being dropped from a boat or bait boat.

- Made from corn material
- Degrades in water within half a year
- Weighs around 1kg when full of sand, gravel or clay
- Can be used with MADCAT Safety Lead Clip XL
- Not designed for casting, use a (bait) boat
- 25x10cm
- Twenty pieces per pack

A-STATIC SILENT TEASER

After the huge success of the MADCAT® Clonk Teasers, it was time for a new version: the A-STATIC Silent Teaser. In heavily pressured waters, the catfish is still attracted by the clonk teaser, but when it approaches the lure, it may get suspicious, because of the ticking beads. What is then needed, to trigger an attack, is the turbulence of an escaping bait fish – without sound! The MADCAT® A-STATIC Silent Teasers are developed to produce as much as possible turbulence, caused by the skirt with a waved edge and golf ball dimples, on both the body and the skirt. Grooves at the bottom of the skirt, makes that the skirt folds away easily when the teaser is lowered (but spreads firmly when lifted). In other words: it will create as little as possible turbulence when lowered but as much as possible when lifted. The MADCAT® A-STATIC Silent Teasers are so sophisticated that it will fool even the weariest catfish again. A-STATIC, meaning: rubber coated, to minimize the electric field that spooks catfish. Note: the coating can wear off during usage.

A-STATIC OCTOPUSES

Octopuses for making a simple clonk teasers. Just stick a round or egg-shaped lead in the head of the octopussy. Then cut a little bit of the tip off, to allow a line to be pushed through, and... ready! (Note: covering the lead helps to minimize the electric field that spooks catfish.) Length: 15cm. Pack of 3 pieces.

Sales Unit 10

PELAGIC CAT LURE

Hunting for pelagic catfish just got a whole lot easier with this super-realistic and incredibly detailed soft lure, specially designed for just that purpose. Featuring a lead hidden inside the head so as not to spook weary catfish, this lure drops fast, swims straight as an arrow and hangs horizontally in the strike zone. The 6X super-strong double hook is held in place with a small, embedded magnet hook keeper. Catfish and sometimes zander hit this lure so hard and deep that unhooking can become tricky – this double hook doesn't stick into the lure body, making unhooking faster and more fish-friendly. The lure also features added smelt flavour scent to draw catfish in from further away.

- Hangs perfectly horizontal
- 6X strong double hook
- Magnet hook keeper
- Internal lead head
- Scented

MADCAT BACKBONE

At MADCAT we are catfish perfectionists, so when we couldn't find a braided line that met our high standards, we decided to make one. This all-new braided catfish line was created following extensive testing of existing lines in the market and has been designed to be up to 30 per cent stronger than anything else out there. The high abrasion resistance and sensitive feel make it ideal for pelagic fishing, casting, or static fishing, and its unrivalled strength allows you to stay in control during the fight once you get a bite. Catfish fishing is not a game, it's a serious business, so why use line that could let you down? Use the strongest and the best from the experts at MADCAT.

- Super-strong braid designed for catfish fishing
- Durable with high abrasion resistance
- Excellent knot strength
- Superb feel
- Available in 300m, 600m and bulk spools
- World record catfish (2023) has been caught with this line.

Sales Unit 5

CAT CABLE

The thickest, strongest and most reliable hoolink material in our MADCAT® range, maybe also on the market. Woven out of sixteen single HMPE strains, to get the maximum strength in combination with softness for easy and secure knots. To conceal the hooklink as best as possible and to improve abrasion resistance it has a toughblack coating.

Sales Unit 5

CAMO SKIN LINE

Skin line is our high quality HMPE hook link material with a discreet brown camouflage coating. By using a small plier, you can peel the skin off of the line to create a stripped, supple end section that allows for free movement on your bait, while the section with skin still intact stays stiff to prevent tangles. The whole set-up makes it easier for catfish to engulf your bait and feel less resistance.

- Removable skin to create supple end sections
- Easy to cut and peel
- High strength
- 10m per spool

SAP NO.	LENGTH M	DIAMETER	COLOR	BREAKING STRENGTH	PRICE

Sales Unit 5

PELLET HOOK LINK 16X

Special catfish hook link, in a concealing brown color. Made out of 16 HMPE yarns, to give it its super supple and smooth properties. After a catfish sucked the bait up and moves on, the line will gently slide over its teeth unnoticed, until the hook grabs hold.

- 16-strand HMPE catfish hook link
- Super supple and smooth
- Discreet brown colour
- 20m per spool

STANDARD PELLET RIG

For those anglers who believe that 'the simpler the rig, the less can go wrong', we have developed a very simple, but hugely reliable standard pellet rig. Featuring a long hair that can take three pellets, this rig doesn't even require a stop to hold them in place. It can also be used to hold just two pellets, simply by wrapping the remaining hair loop over the last pellet.

- Easy to use design
- Simple hair loop for two or three pellets
- High quality components
- A-STATIC hook

SAP NO.	LENGTH CM	DIAMETER	HOOK SIZE	BREAKING STRENGTH	PRICE

Sales Unit 5

QUICK CHANGE PELLET RIG

Very popular amongst French catfish anglers, who like to fish with a critically balanced snowman bait presentation and already prepared these at home. For that purpose, this rig is supplied with three, 73mm long hairs that can easily be clipped in the little snap on the hook. Tied with MADCAT Skin Line.

- A snap on the hook allows for quick hair loop change
- Three 73mm hairs supplied
- Tied with MADCAT Skin Line
- High quality components
- A-STATIC hook

COMBI PELLET RIG

This rig uses a combination of both monofilament and braided line in one rig, giving you the very best of both worlds. The weight, stiffness and elasticity of mono, work in tandem with the smoothness and suppleness of braid. These rigs are for catfish anglers who believe that attention to detail makes a big difference.

- Uses both mono and braid
- High quality components
- Best of both worlds design
- Excellent bait presentation
- A-STATIC hook

ADJUSTABLE RIVER RIGS NOSE CLIP

Get more success on fast-flowing waters by using this rig with a MADCAT Adjustable Subfloat to rig up a baitfish. The big advantage of the nose clip is that the catfish will always hook itself on the treble hook (instead of a traditionally used nose hook), resulting in a higher hook-up rate. Tied with 1.30m thick MADCAT Ultra-Soft mono leader. The rig's total length is 250cm, while its breaking strain is 165lb.

Sales Unit 1

GOLF BALL HOT BALL JIGHEAD

The good old MADCAT® Hot Ball, only now with golf ball dimples, to reduce drag. Ideal for vertical jigging with a live or dead bait. Features a small eye, for a stinger treble. Made with a super strong and ultra-sharp single hook. The gap between the hook point and the lead is big enough to ensure a high hook-up rate.

SAP NO.	HOOK SIZE	WEIGHT	PRICE
SVS66100	#9/0	100	
SVS66101	#9/0	120	

Sales Unit 10

MONO SPIN LEADER

Catfish spin leader with a ball bearing swivel and coats lock snap. Made of 1.3mm thick MADCAT® Ultra-soft Mono Leader line. Total length: 50cm. Breaking strength: 80lb.

SCREAMING SUBFLOAT

These hollow, ABS subfloats may very well be the most advanced and best performing subfloats on the market today. As long as the float spins it rattles. And since it spins non-stop, it rattles non-stop! Available in three sizes: small, medium and large (20, 40 and 60 gram).

SAP NO.	DESCRIPTION	PRICE
SVS55995	SCREAMING SUBFLOAT 10CM 20G	
SVS55996	SCREAMING SUBFLOAT 11.5CM 40G	
SVS55997	SCREAMING SUBFLOAT 13CM 60G	

Sales Unit 10

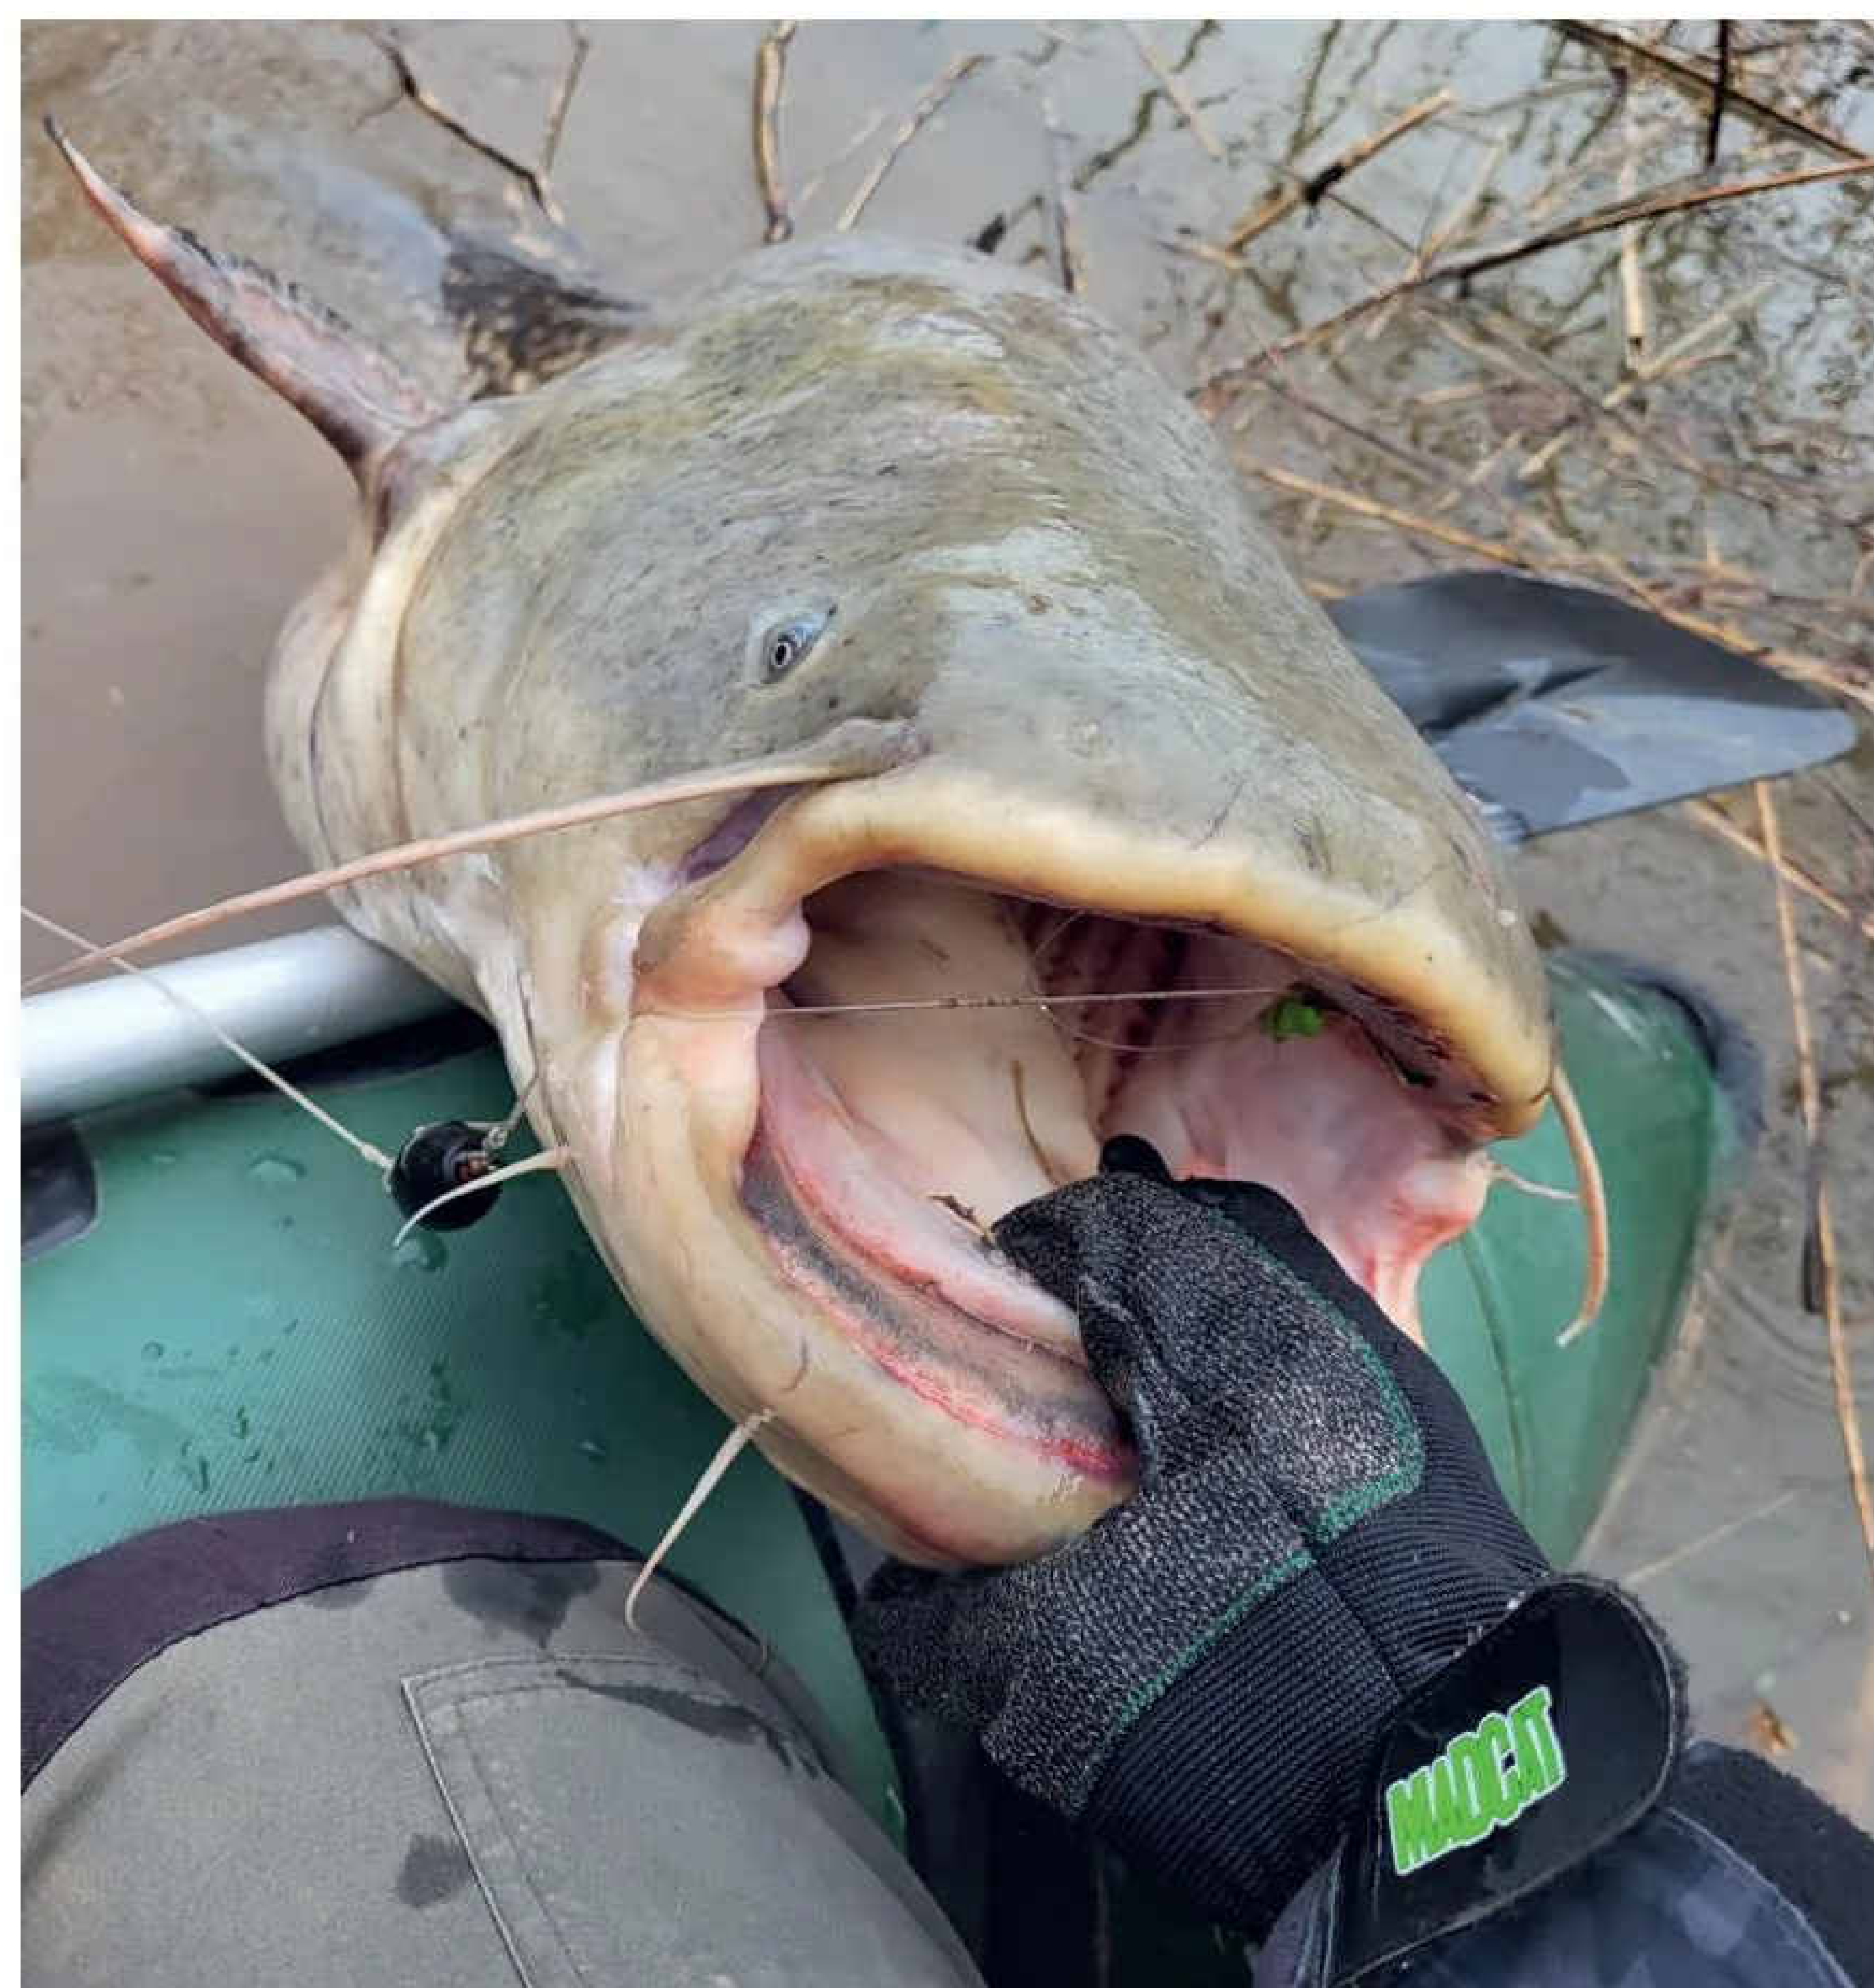

PROPELLOR SUBFLOAT

Super strong, PU underwater floats with wings. Will spin in fast running rivers. Will attract that little bit of extra attention that can make the difference between getting a run or not.

SAP NO.	DESCRIPTION	PRICE

ADJUSTA BUOY FLOAT

Small, simple and extremely effective, adjustable PU buoy float. In a fluorescent colour, with a reflective band, so that it will be easy to spot in the night. To adjust the length of the line, simply wind it on or off the body before you put it in the clip.

SAP NO.	DESCRIPTION	PRICE
SVS52063	ADJUSTA BUOY FLOAT 15M 32G	

Sales Unit 10

BUOY ROPE 15M

Anchor rope for catfish buoys (15 meter). Stick the snap through the eye of the buoy, attach it to the anchor stone and drop the stone on the desired spot. The floating body will unroll the line automatically, until the anchor hits the bottom. To fixate the line, guide the line through the slot and wrap it several times around the hook. The big advantage of the MADCAT Buoy Rope? That you can store the line in an orderly fashion.

SAP NO.	DESCRIPTION	PRICE
SVS66675	BUOY ROPE 15M	

Sales Unit 6

SUBFLOAT BALLS

Ball-shaped subfloats with slightly flattened ends and a buoyancy of 5 gram. Tube diameter: 2.0mm. Can be used as a single, mini subfloat or be combined to a 5, 10, 15 or 20 gram subfloat. When not pushed too tightly together they can move independently. Keep them in place with a MADCAT® Super Stopper.

SAP NO.	DESCRIPTION	PRICE
SVS56664	SUBFLOAT BALLS 5G 4PCS	

Sales Unit 5

XXL STOPS

Ten very big, fluorescent float stops that can be used on braided lines up to 1.00mm.

SAP NO.	DESCRIPTION	PRICE
SVS57026	XXL STOPS 10PCS	

Sales Unit 10

FLEXIBLE BOOM SNAP

This flexible boom-snap will make your fishing much easier, faster and more flexible. The genius system makes it possible to attach the boom on your line afterwards! You don't need to tie a new knot and you are able to react immediately on changing conditions! Perfect for waggler floats, sub floats and break line rigs!

SAP NO.	DESCRIPTION	PRICE
SVS8406006	FLEXIBLE BOOM SNAP 2PCS

1 COMPARTMENT - 2 DEVIDERS

4 COMPARTMENTS - 16 DEVIDERS

TACKLE BOX

Stylish, big and deep tackle box that is completely waterproof because of the silicon sealed lid and handy, wide clips that distribute the pressure equally. With a gunsmoke lid to reduce the heating effect of sunlight on the metal components inside. The version with three fixed walls inside is meant for small (terminal) tackle and comes with small removable dividers, to modify the layout of the box. The box without a fixed wall inside also comes with removable dividers, making it possible to turn the box into three compartments. Dimensions: 35x22x8cm.100% PP.

CLONK DELUXE

Our famous Clonk Deluxe, only now without the luxury gift box – to make it more affordable. Handmade of one piece of wood, so no glued parts that can fall or break off. With a unique head shape that makes it very easy to produce the right sound.

SAP NO.	DESCRIPTION	PRICE
SVS56539	CLONK DELUXE	

Sales Unit 10

CLONK DEEP WATER

Clonk with a big, flat head, ideal for producing really loud sounds. The powerful shockwave it produces is able to reach and provoke catfish even in the deepest parts of the river. Completely hand carved out of one piece wood, so no attached parts that can fall or break away. With this clonk it is easy to produce the right sound; ideal for beginners.

SAP NO.	DESCRIPTION	PRICE
SVS8421003	CLONK DEEP WATER	

Sales Unit 5

KLONG

The black MADCAT® Klong is a high quality clonck that produces a quick and powerful sound! The ergonomically designed handle part and the simple handling, make it perfectly suitable for every kind of catfish angler.

SAP NO.	DESCRIPTION	PRICE
SVS8421002	KLONG	

Sales Unit 1

CLONK CLASSIC

Classic shaped clonk, carved out of one piece of hard wood. No glued or screwed parts, so it won't fall apart. With a medium sized, convex shaped head. The advantage of a convex head is that it doesn't splash as much as, for instance, a flat head. So, the user won't end up with a wet arm. The downside: it may be a bit difficult to produce the right sound for beginners. The best clonk for the experienced catfish cracks.

SAP NO.	DESCRIPTION	PRICE
SVS8421004	CLONK CLASSIC	

Sales Unit 5

BELLY BOAT PRO-MOTOR

A new and improved generation of the popular MADCAT belly boat – ready for action, just like you are. This boat has been designed with functionality and safety to the fore and is fully Float Plus-ready, but can also easily have a trolling motor placed in front of the bow. The bumper features a gap specifically to help you attach a motor mount. The new design of this belly boat is 5cm longer than the previous version to improve buoyancy and balance while the drop stitch seat is no less than 2cm higher than normal and features anti-slip EVA padding to further increase comfort. The boat has been designed with three separate air chambers – should the worst happen and one of them get punctured, it can still float with two remaining. All supplied bags are fully waterproof and stable while the MADCAT Pro Motor also has an extra waterproof bag in the front of the tip. Customisation is key with this belly boat – all the tube ends are empty so you can easily equip your chosen desired accessories such as fish finders or rod supports with glue-on pads. Supplied with an easy-to-use hand pump and pressure clock, so you can always be sure it is inflated to the optimum pressure.

- Float Plus-ready
- Trolling engine mount friendly
- Extra-long for increased stability
- Glue-on pad friendly
- Inflatable bottom
- Extra-high drop stitch seat
- Comfortable EVA seat padding
- Four sturdy, super-stable waterproof bags
- Three air chambers
- Non-slip seat straps
- Extra-long drag pads
- Lightweight: 14.5kg (including all bags)
- Length: 185cm
- Hand pump with pressure clock included

SIZE GUIDE

BODY MEASUREMENT TABLE TO FIND THE CORRET SIZE (CM)

Below you'll find a size guide. This table lets you use your own body measurements to choose your size. The easiest way to measure your body measurements is with a measuring tape. To find the size that fits you best, compare your body measurements with the sizes shown in the table.

BODY MEASUREMENTS - MEN

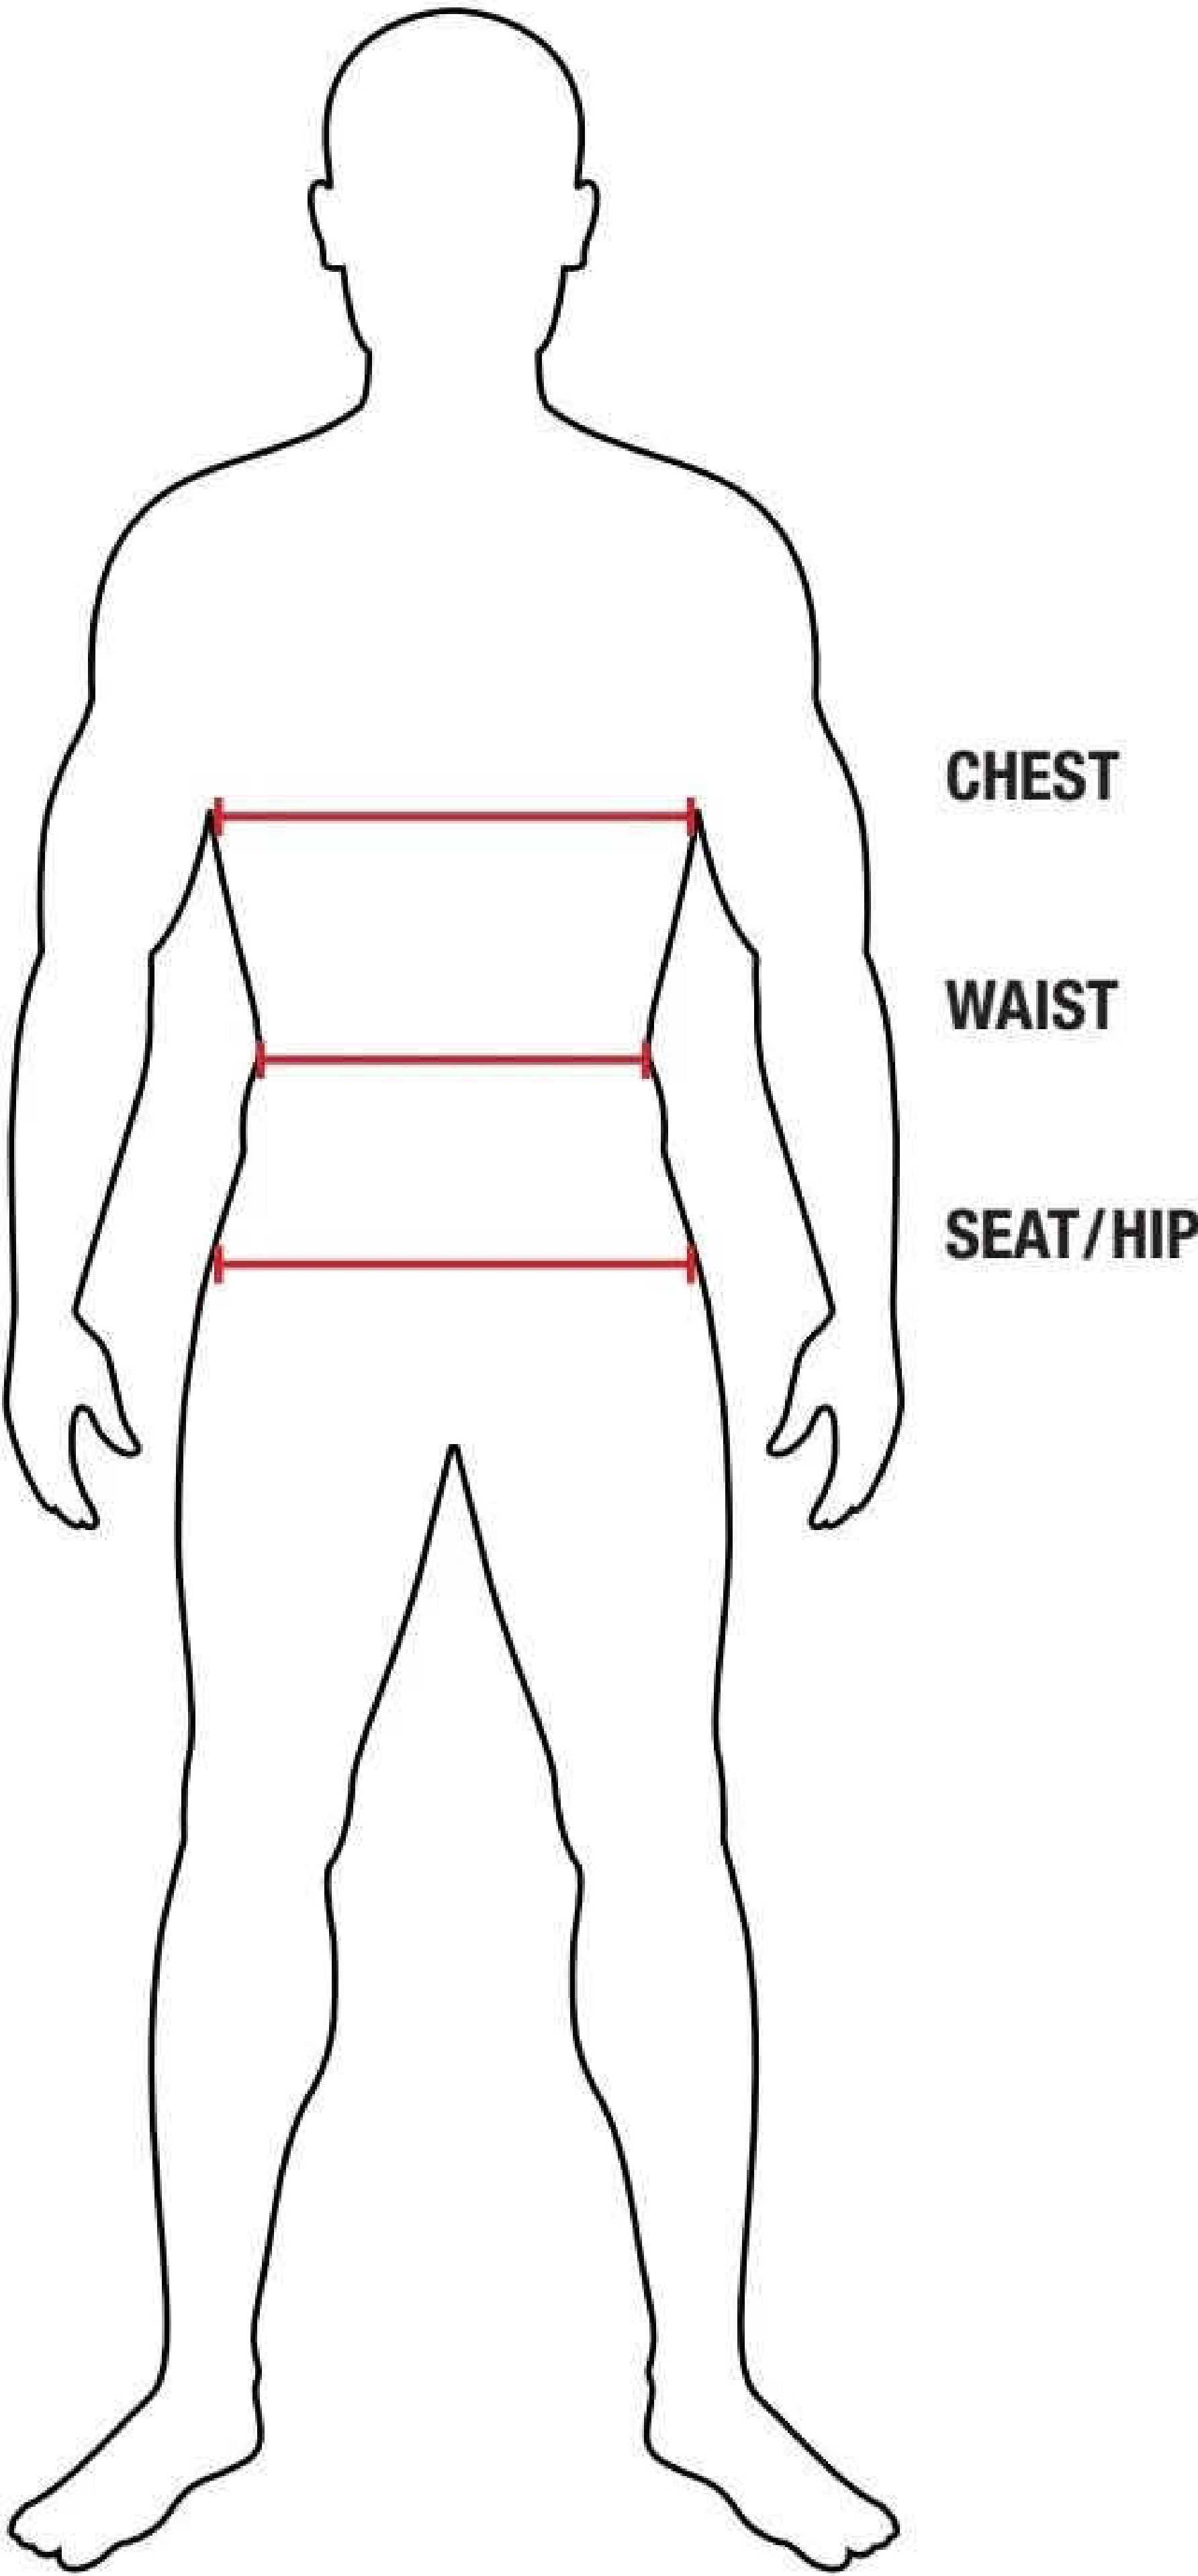

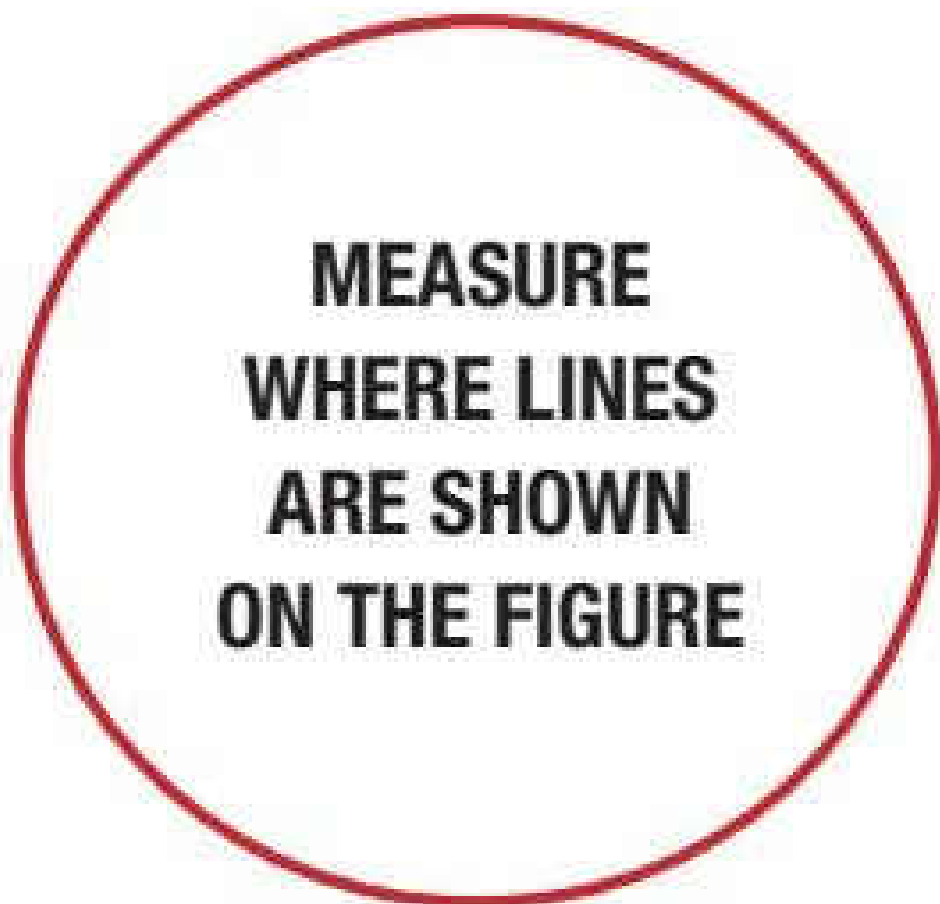

SIZE	S	M	L (52)	XL	XXL	3XL
CHEST 1/2	47 CM	50 CM	53 CM	56 CM	59 CM	62 CM
WAIST 1/2	40.5 CM	43.5 CM	46.5 CM	49.5 CM	52.5 CM	55.5 CM
SEAT/HIP 1/2	48 CM	51 CM	54 CM	57 CM	60 CM	63 CM

Measurements should be taken directly on your body!

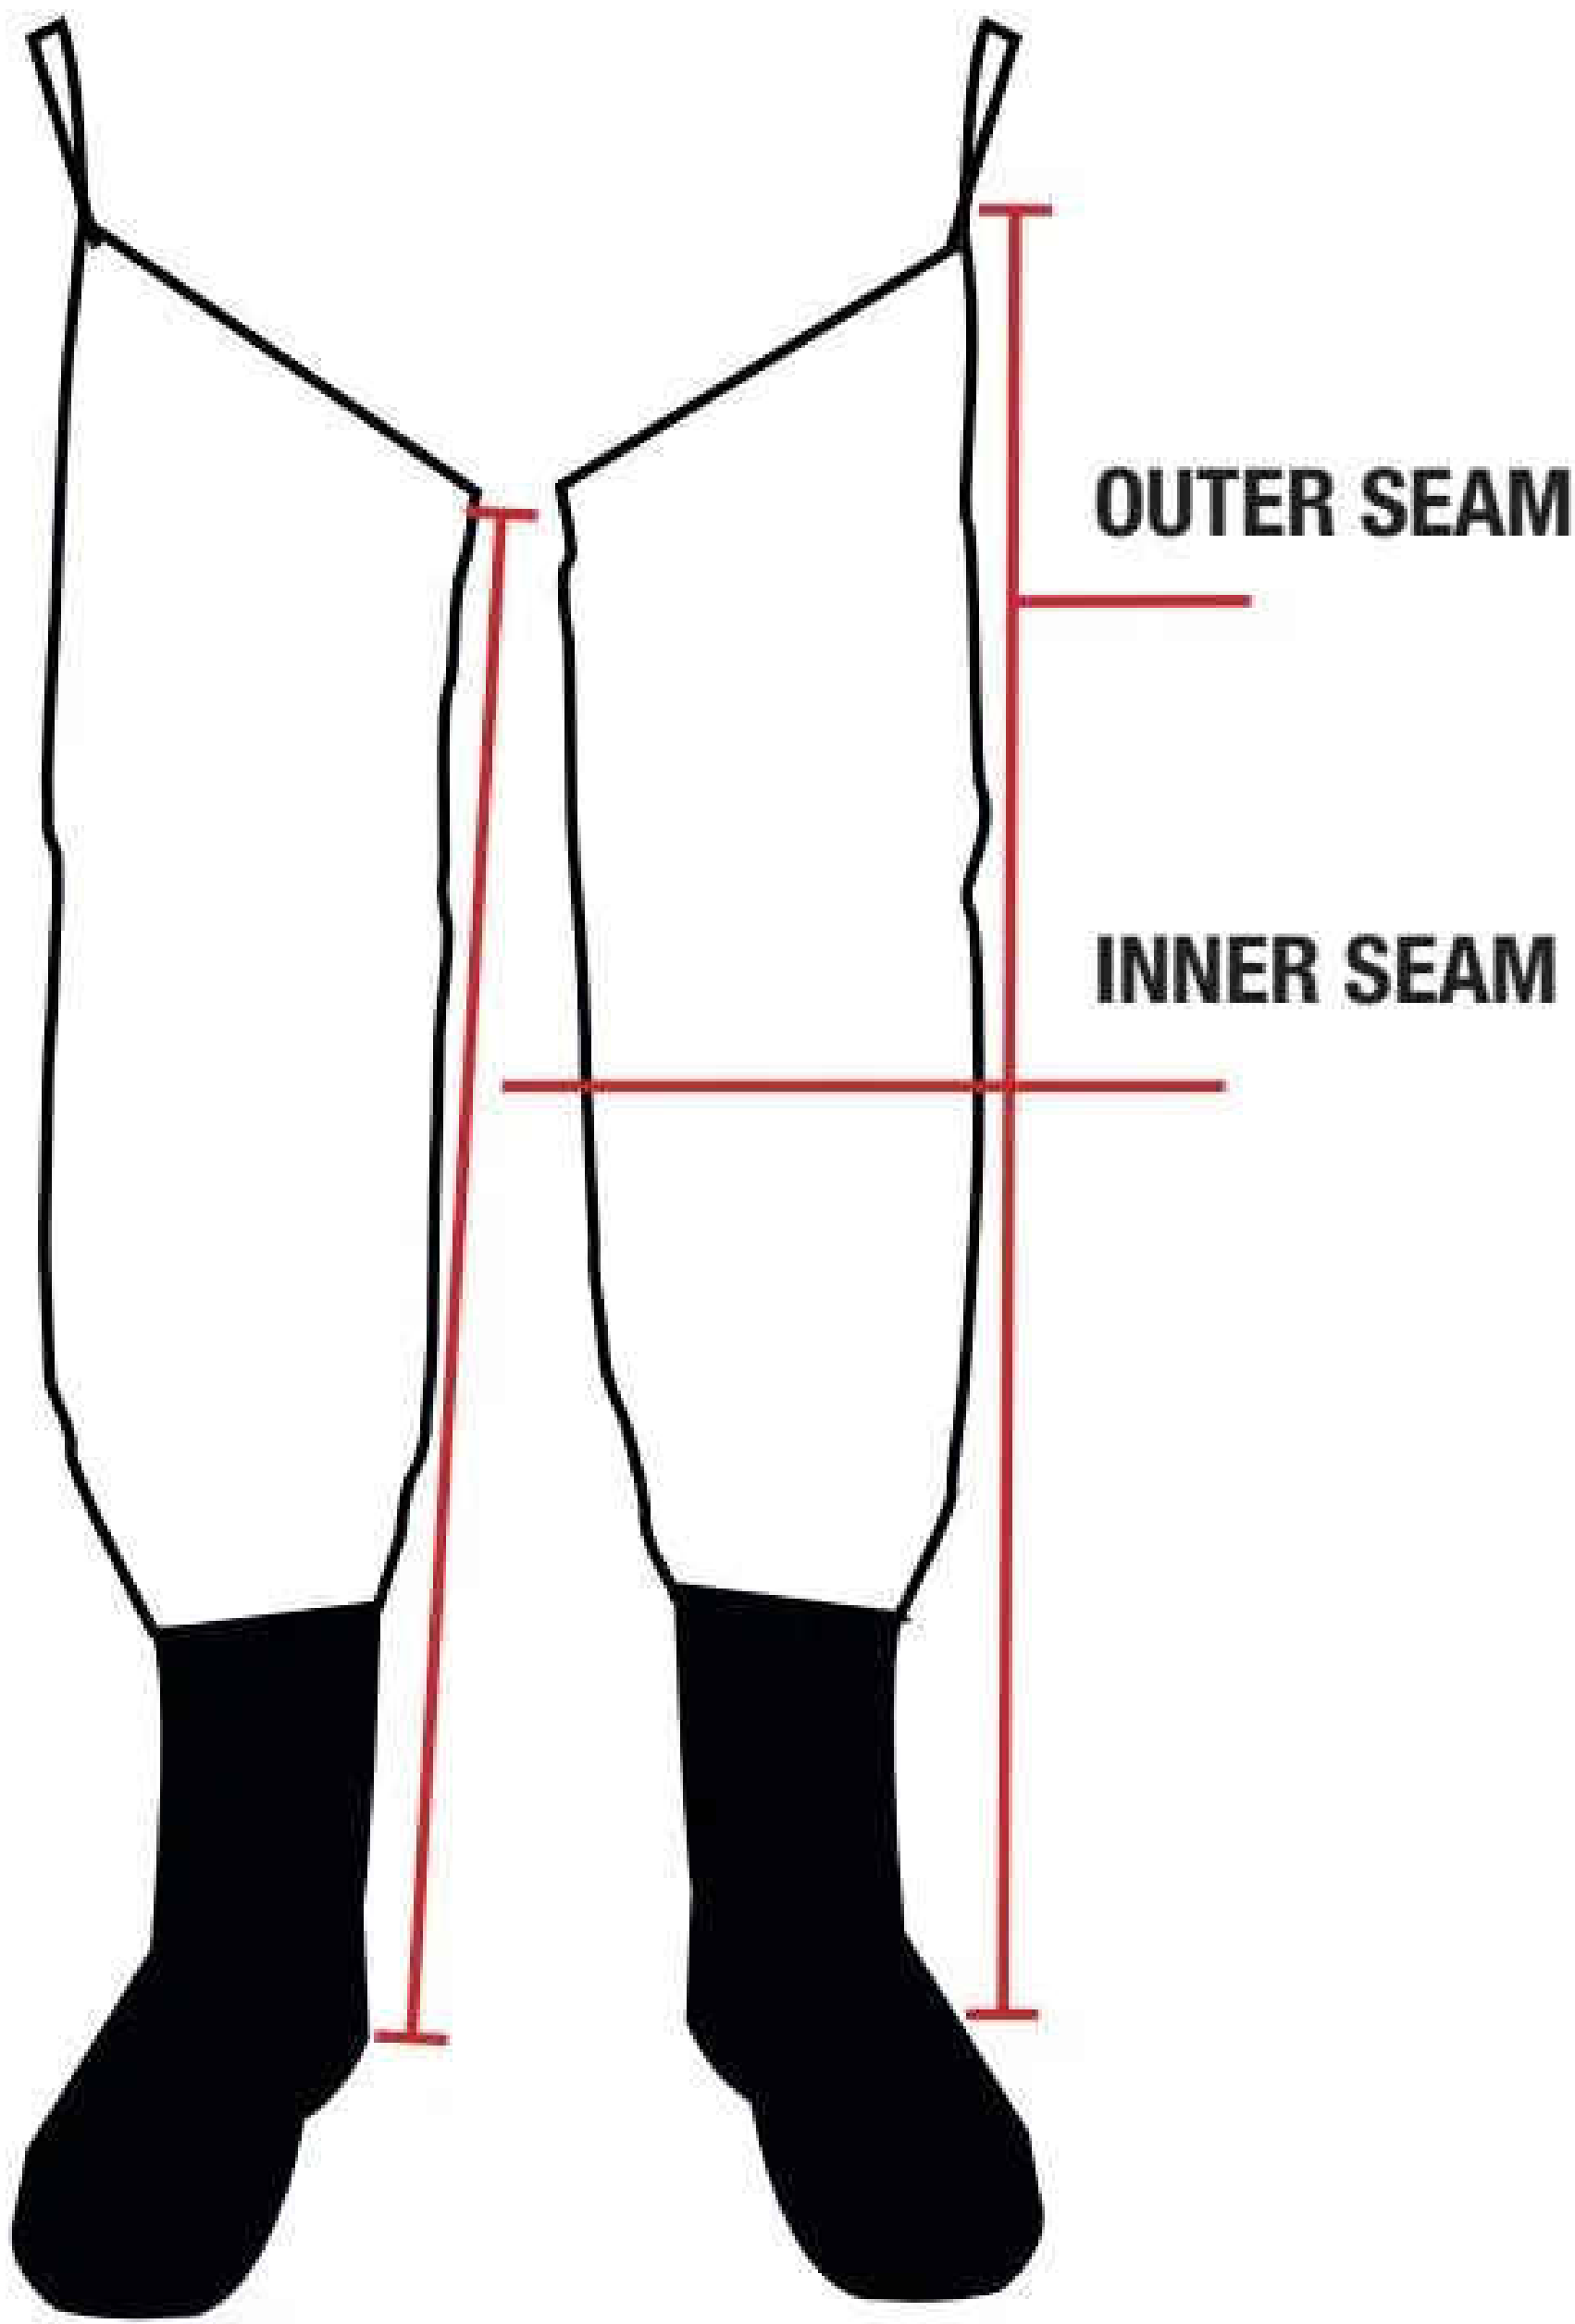

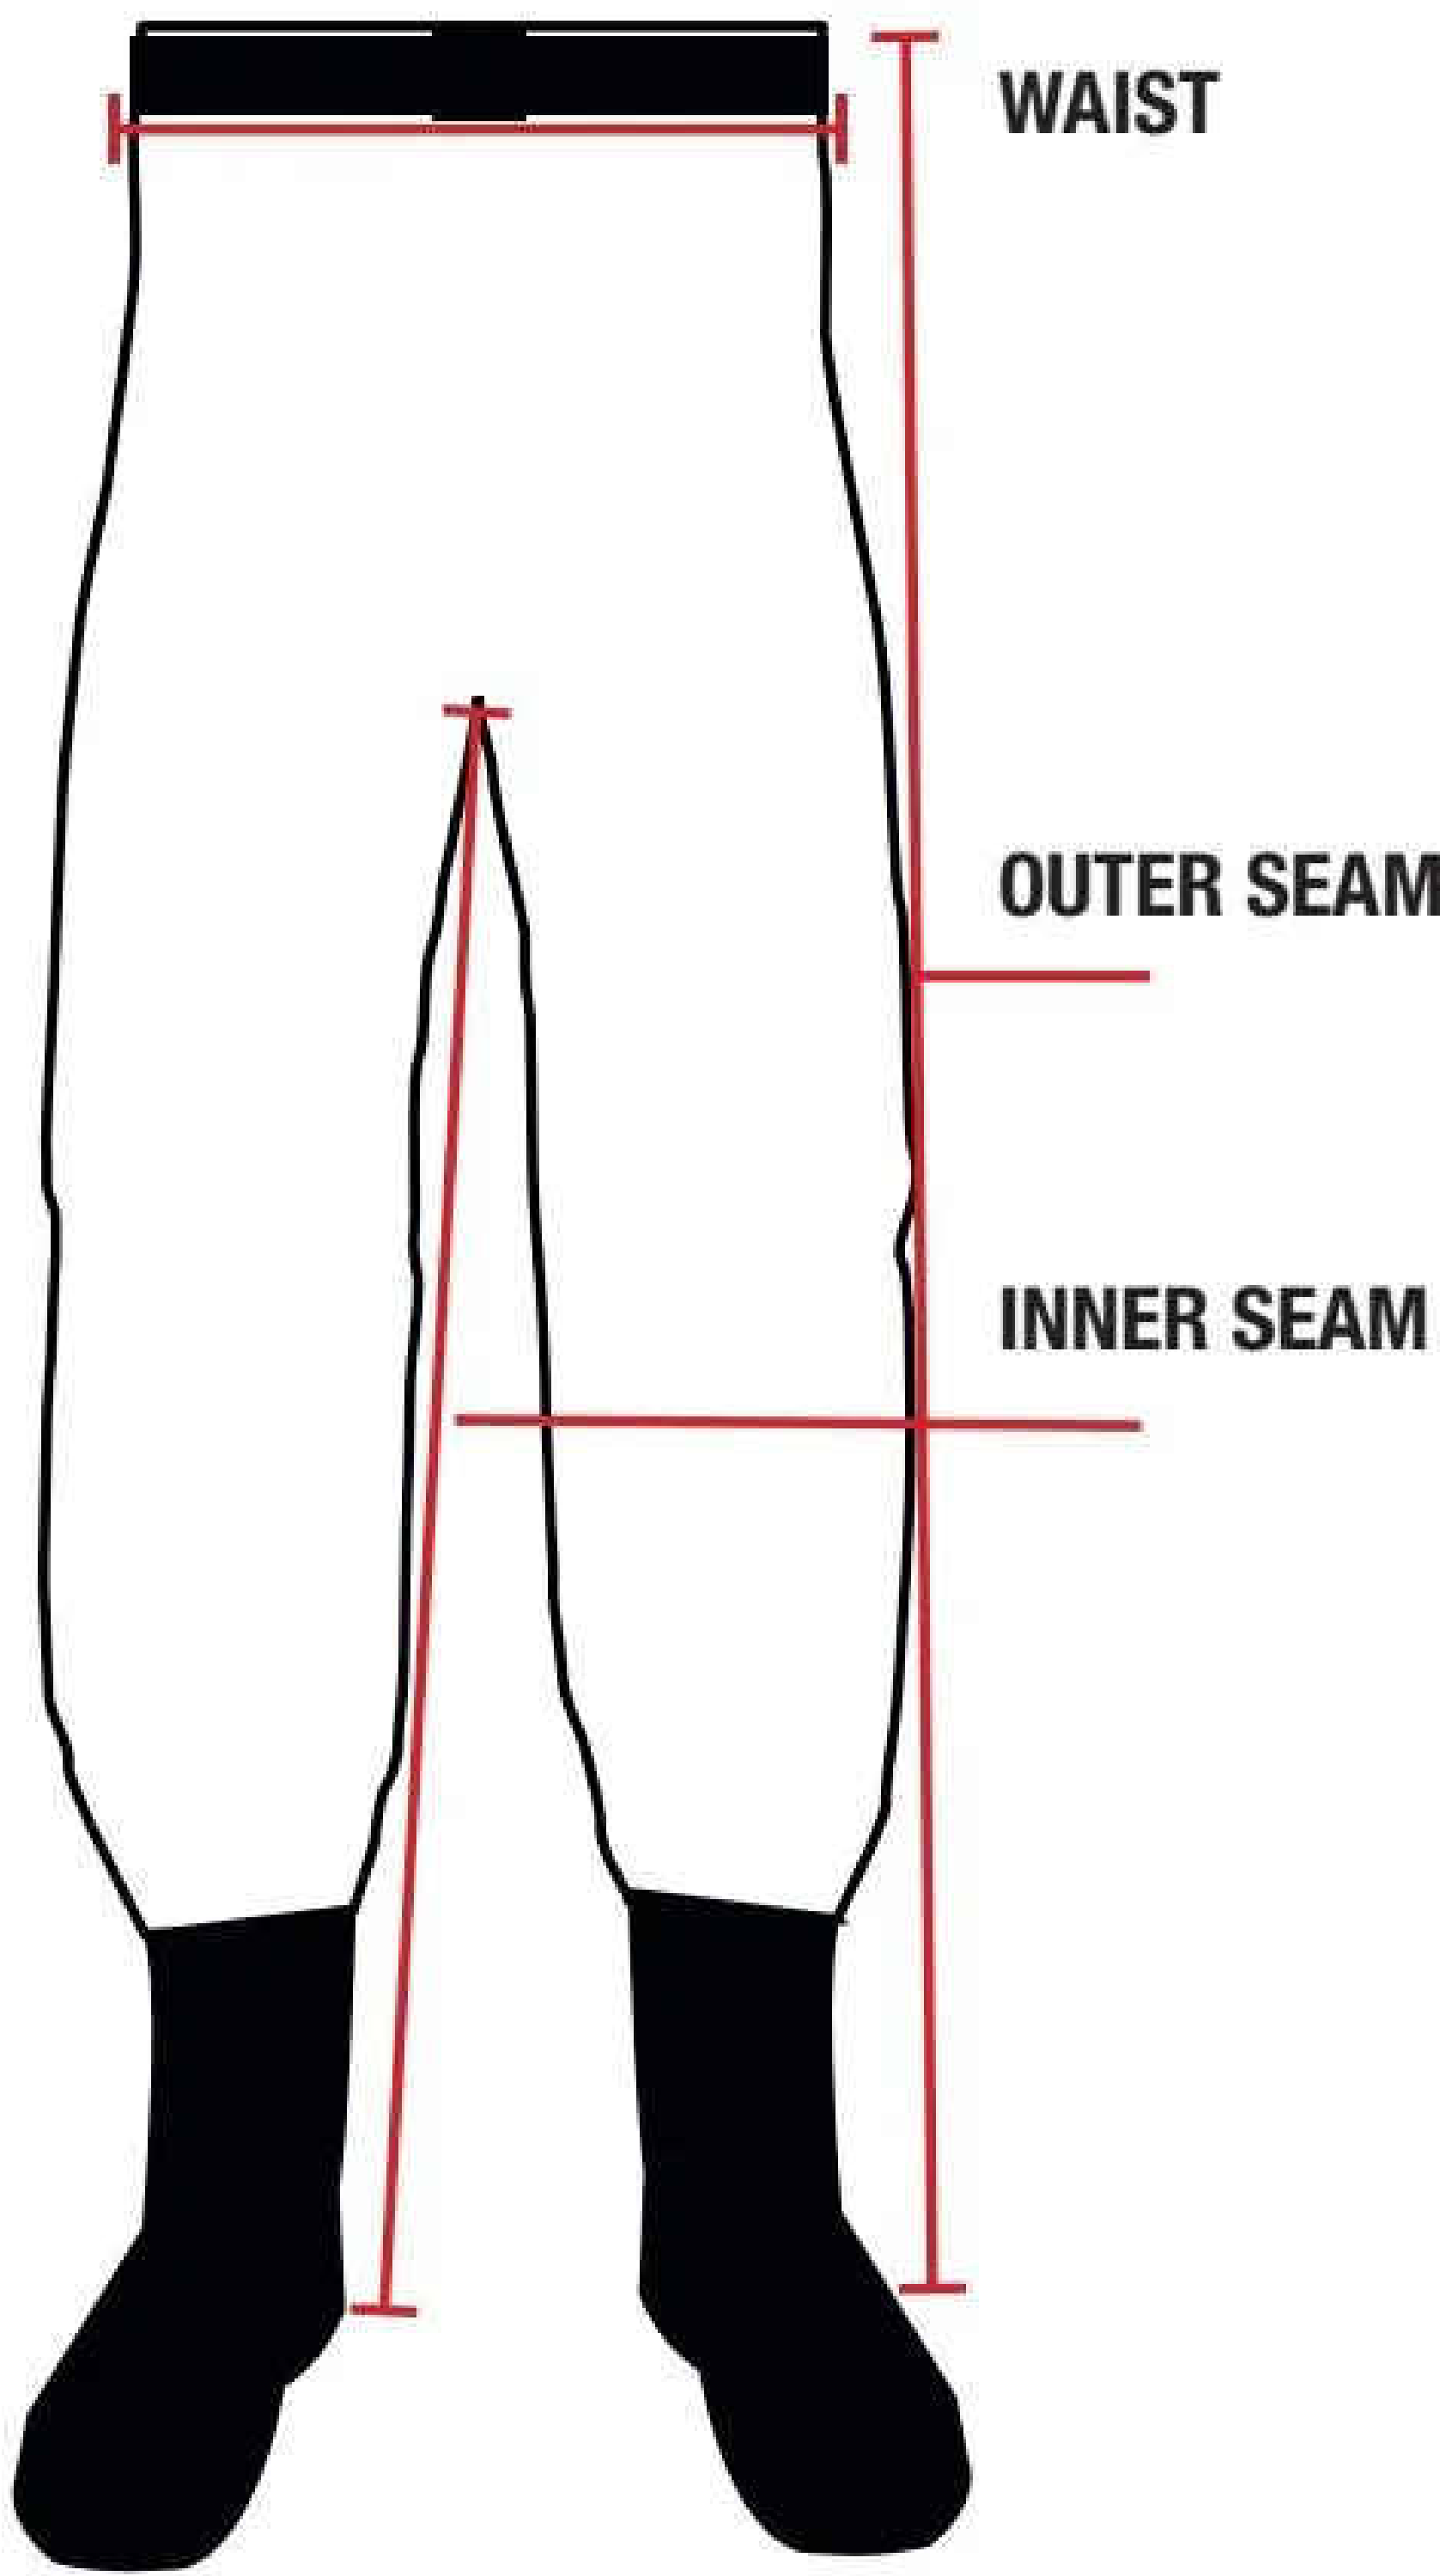

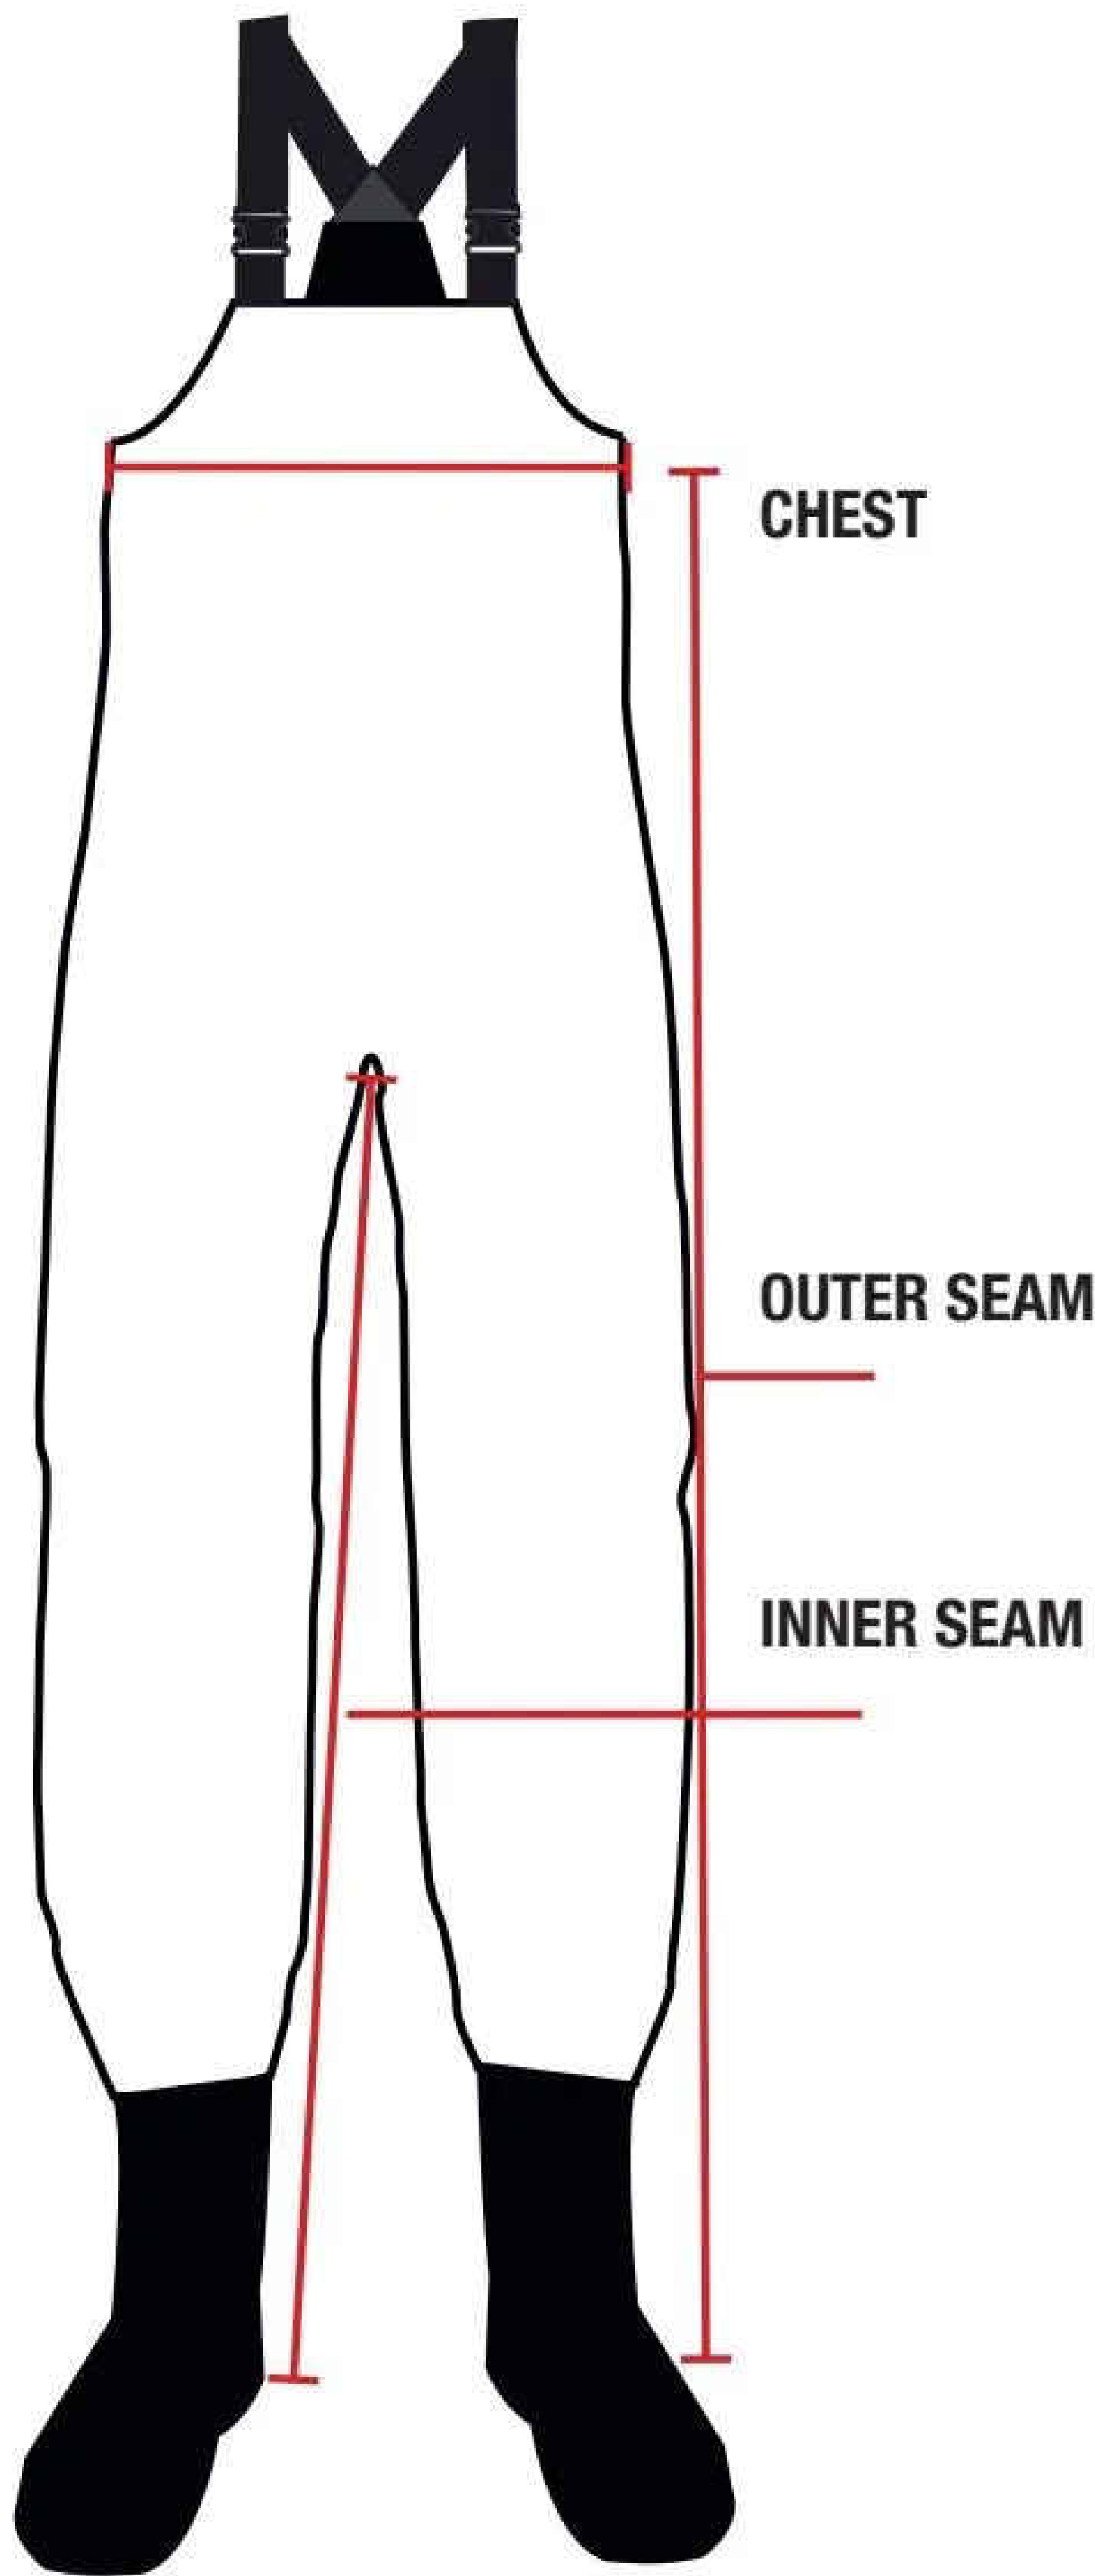

Chest: Measure your chest over the fullest part

Waist: Measure your waist at the narrowest point

Seat/hip: Measure your hip around the fullest part of your hip

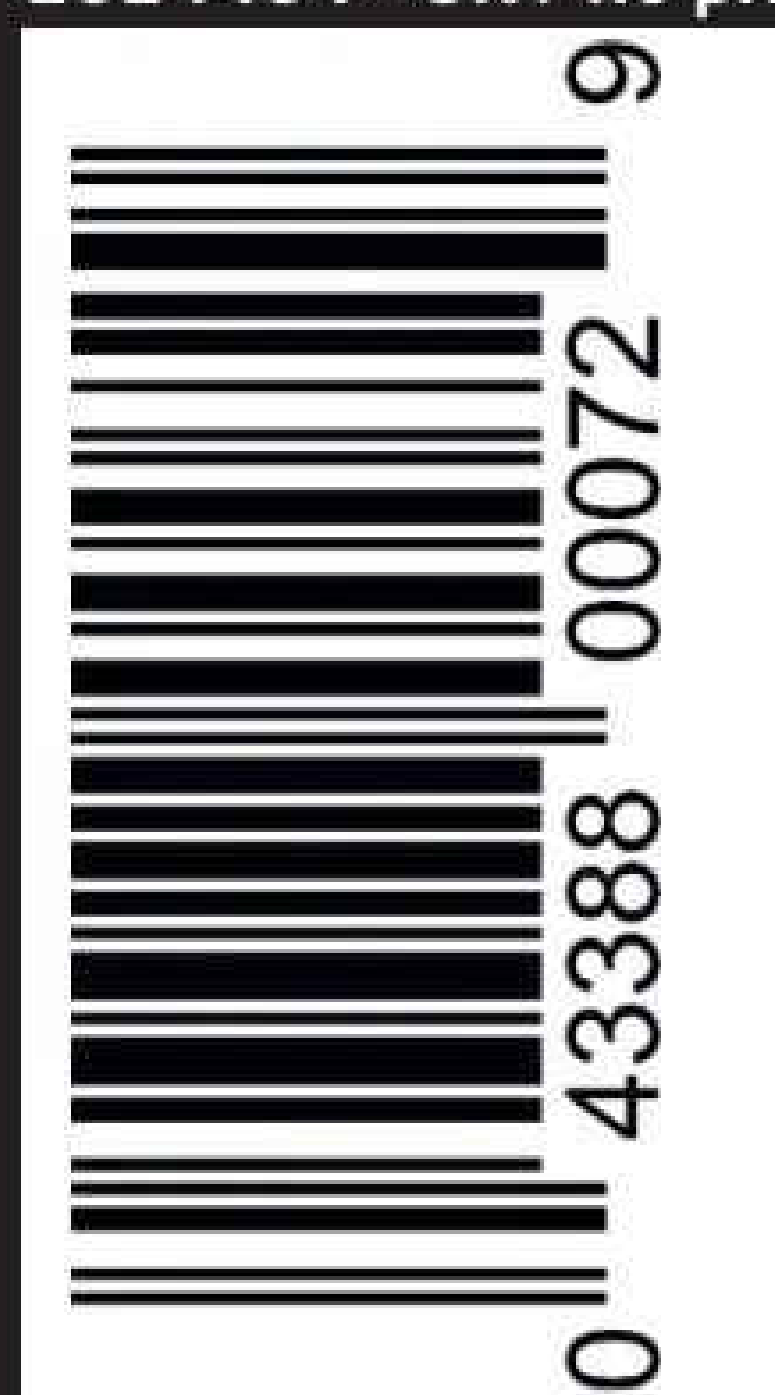

HOW TO MEASURE WADERS
